MODIFICATION SOLUTIONS

With unmatched local capabilities, we are confident that we can meet the demands of your unique enclosure application. By utilizing our in-house modification center, we minimize the time and effort associated with tasks like center punching, drilling, tapping, and measuring. Standard Electric ensures quick turnaround to meet your project deadlines.

**Holes, Cut-Outs,
and Infrared Windows**

**Accessory
Installation**

Climate Control

CNC Machining

Custom Painting

Enclosure Assembly

Sub-Panel Modification

ENCLOSURE TURNAROUND

Our machining center is designed specifically to increase the capacity and efficiency of the enclosure modification process.

Standard Electric's investment in this capability can alleviate the major pain points associated with enclosure modification jobs – from time consumed to money spent.

REQUEST A QUOTE TODAY!

A short lead time isn't very helpful if the job isn't done right. That's why Standard Electric handles every quote request with the individual attention you demand to ensure accuracy. Trust us with your next project, and call your Standard Electric Account Manager. We'll take care of the rest!

24-HOUR EMERGENCY SERVICE: (888) 776-3070

We're on call all hours of the day to be there in the moments you need us most.
