

Standard Electric Supply Co.'s Prop 65 Policy

The California Safe Drinking Water and Toxic Enforcement Act of 1986, commonly referred to as "Proposition 65" or "Prop65", is a "right to know" law that requires manufacturers to provide warnings if a product can expose individuals to a chemical known to the State of California to cause cancer or reproductive harm.

Standard Electric Supply Co. does not manufacture any products. We rely on information provided by our suppliers concerning the source of the chemicals used in their products and that their products are properly labeled according to the regulation.

Standard Electric Supply Co., as a privately held company, fully supports the regulation Proposition 65. We expect our suppliers to do the same. We support our customers in their efforts to become compliant. If you require specific Prop 65 information for products you purchase from us, please contact customercompliance@standardelectricsupply.com.
