## Overview

SIMATIC IPC647E, IPC547E, IPC227E, IPC427E, IPC627E, IPC677E

## SIMATIC Industrial PC

Our reliable and innovative SIMATIC industrial PCs are the optimal PC hardware platform for PC-based Automation from Siemens.

### Rack PC

Rack PCs are flexible, high-availability industrial PC systems for powerful yet compact applications using 19" technology.

### Box PC

SIMATIC Box PCs provide mechanical engineers, plant engineers and control cabinet makers with particularly rugged industrial PC systems for use in powerful yet compact applications.

### Panel PC

SIMATIC Panel PCs are suitable thanks to their high industrial compatibility for use in control cabinets, consoles and control panels, as well as directly on the machine. Typical areas of application can be found in both factory and process automation.

### Tablet PC

The SIMATIC Industrial Tablet PC taps new application areas within the scope of Industrie 4.0. Designed for industrial use, the SIMATIC ITP1000 delivers convincing results with its many functions for day-to-day working. Typical applications are in maintenance/service, production and measuring and testing.

### Industrial monitors and Thin Clients

Flexible operator input concepts can be implemented via Flat Panel monitors or Thin Clients. These are industry-standard LCD monitors with high-contrast displays that can be located at quite some distance from the PC, or low-cost, rugged Thin Clients that offer HMI functionality over the network in larger plants spread over wide areas.

## Devices for special requirements

### Fully-enclosed IP65 devices

The fully-enclosed SIMATIC PRO devices are ideal for industrial applications in harsh environments due to their extremely rugged design. They are, for example, specially designed for mounting on a support arm/pedestal.

<http://www.siemens.com/ip65-hmi-devices>

### Devices with stainless steel front

SIMATIC HMI offers industry-specific versions for smooth use in accordance with regulations by modifying its standard devices. For the food and beverages industry, for example, we supply devices with stainless steel fronts, and for industries facing particularly harsh environmental conditions we offer fully-enclosed, dust and splash proof devices in a rugged aluminum enclosure with high IP65 protection.

Panels and Panel PCs with touch screens and stainless steel fronts are designed for machine-level operator control and monitoring in the food and beverages industry.

<http://www.siemens.com/inox-hmi-devices>

### Devices for hazardous areas

Intrinsically safe SIMATIC Panel PCs and Thin Clients specifically developed for hazardous areas.

<http://www.siemens.com/simatic-hmi-ex>

### IPC software

A graded concept is available for effective early detection of potential failures and minimization of actual downtimes. It consists of hardware and software expansion options specially developed for SIMATIC IPCs, which can be used to increase availability on a system-specific basis, depending on safety requirements.

The following components are available:

- SIMATIC IPC Image & Partition Creator
- SIMATIC IPC DiagMonitor
- SIMATIC IPC Remote Manager
- SIMATIC Industrial OS

### Embedded bundles and starter systems with industrial PCs

Embedded industrial PCs are available at attractive prices as ready-to-use SIMATIC embedded bundles complete with a Windows Embedded operating system and pre-installed and pre-configured SIMATIC visualization and control software.

The starter systems are based on the Windows 10 operating system and also contain pre-installed and pre-configured SIMATIC visualization and control software. They are efficient, cost-effective, ready-to-run overall packages that enable clearly faster commissioning.

They are efficient, cost-effective and ready-to-use complete packages that enable significantly faster commissioning.

<http://www.siemens.com/simatic-embedded-bundles>

### Software packages for SIMATIC IPCs

Software packages are offered for all available SIMATIC IPCs that, when ordered, produce genuine price advantages. All you have to do is: select your SIMATIC IPC, configure it, and order it together with the SIMATIC WinCC RT Advanced, WinCC RT Professional and WinCC V7 software and also the SIMATIC WinAC RTX (F) software controller.

# PC-based Automation

## Industrial PC

### Introduction

#### Benefits

##### **Reduction in standstill times thanks to high system availability**

- Assured 24-hour operation as a result of high-quality parts and components (high MTBF, speed-controlled fans)
- Efficient self-diagnostics for avoidance of potential failures (front status LEDs, SIMATIC IPC DiagMonitor diagnostics software for condition monitoring, local and remote)
- Minimum downtimes thanks to mirror disk systems and preventive data backup with SIMATIC IPC Image Creator
- Restore USB FlashDrive or restore DVD for restoration of the delivery state
- Installed and activated Microsoft operating systems for time savings during installation

##### **High degree of investment security for long-term automation concepts**

- Availability of 3 to 6 years (at least 1.5 years for Rack PC IPC547)
- 5-year repair and spare parts service (3 years for Rack PC IPC547) after expiration of the active marketing period
- Long-term concepts are implementable and reduce future engineering costs
- System-tested SIMATIC software (WinCC, WinAC, etc.) and connection options for distributed I/Os via an optional PROFIBUS or PROFINET interface on board link the industrial PCs with Totally Integrated Automation
- Certificates for worldwide marketing (cULus), the CE mark for use in industrial areas and in domestic, business and commercial environments
- Compatibility in hardware and software thanks to, for example, unchanged mechanical dimensions or the use of existing user software on all devices of the same generation
- Worldwide service and support (e.g. 24-hour SIMATIC Hotline)

#### Application

SIMATIC IPCs are the ideal platform for PC-based Automation and are used both in the production and process industry, as well as in industry-oriented sectors such as traffic engineering, building management, warehouse systems.

Typical applications include:

- Instrumentation and control tasks (e.g. with SIMATIC Software Controller, also failsafe)
- Operator control and monitoring (e.g. with SIMATIC WinCC flexible, WinCC RT Advanced or WinCC)
- Data acquisition
- Image processing
- Communication, gateways

#### More Information

##### **Notes on the scope of delivery**

Microsoft operating systems are pre-installed in an OEM version.

The scope of supply also includes:

- Recovery CD for simple reinstallation of the operating system (with IPC547G, IPC647D and IPC847D only)
- Restore USB FlashDrive or restore DVD (with IPC547G, IPC647D and IPC847D only) for fast and easy restoration of the PC delivery status
- "SIMATIC IPC Documentation and Drivers" on restore USB FlashDrive or DVD (with IPC547G, IPC647D and IPC847D only)
- Compact Operating Instructions (German/English/French/Spanish/Italian/Chinese)
- Electronic manual on "IPC Documentation and Drivers" data carrier (German/English)

Additional information is available on the Internet at:

<http://www.siemens.com/simatic-ipc>

**Overview**

Rack PCs are flexible, high-availability industrial PC systems for powerful yet compact applications using 19" technology.

Four device classes are available for different requirements:

**SIMATIC IPC347** – high performance at an optimized price

**SIMATIC IPC547** – latest technology and maximum performance at an attractive price

**SIMATIC IPC647** – maximum compactness combined with maximum industrial functionality

**SIMATIC IPC847** – maximum expandability and industrial functionality

**SIMATIC IPC1047** – maximum performance and expandability

**Shared industrial functionality of the IPC series 547, 647 and 847**

- Maximum system performance for complex automation tasks and computationally intensive PC tasks in the industrial environment through use of Intel Core processors
- Designed for 24-hour continuous operation
- Monitoring and diagnostics functions (e.g. temperature, fan, watchdog)
- RAID1 configuration (mirrored drives), optionally in hot swap drive bays
- Hard disks with capacities up to 2 TB for large volumes of data
- SSD (solid-state drive) SATA, also as RAID1 configuration, optional
- Redundant AC power supply, optional
- Compact dimensions for installation in control cabinets only 500 mm deep
- Dust protection thanks to overpressure ventilation concept with fan on the front and dust filter
- Lockable front door
- Service-friendly equipment design due to prepared telescopic rail mounting
- Service-friendly device design due, for example, to the replacement of filters/fans from the front without the need for tools, or opening of the enclosure with just one screw.
- Universal implementation as an industrial workstation or server
- Operating system pre-installed and activated for fast startup
- Fast restoration of the delivery status of the HDD thanks to restore DVD or USB flash drive
- High flexibility and expandability of components
- PCI and PCI Express expansion slots
- Independent industrial product design

## PC-based Automation

### Industrial PC

#### Rack PC

##### Overview (continued)

###### **SIMATIC IPC347E – high performance at an optimized price**

- Intel Pentium and Intel Core i processors, 4th Generation
- Lockable front flap
- Uninterrupted duty at 40 °C ambient temperature without power loss
- Dust protection thanks to overpressure ventilation concept with fan on the front and dust filter
- PCI and PCI Express expansion slots
- 7 configurations available ex stock at short notice
- Availability approx. 3 years
- Guaranteed spare parts availability for at least 3 years

###### **SIMATIC IPC547G – latest technology and maximum performance at an attractive price**

- Intel Core i processors 6th Generation and Xeon
- Maximum processor performance in maximum configuration without loss of power (throttling) at ambient temperatures of up to 40 °C
- Optional RAID5 configuration (striping with parity) in hot swap drive bay
- RAID1 and RAID5 configurations with additional hot spare hard disk, optional
- Hard disks with capacities up to 2 TB for large volumes of data
- Low noise output thanks to controlled fans
- Status and alarm LEDs at the front for signaling critical system states
- Availability approx. 3 years
- Guaranteed spare parts availability for at least 3 years

###### **SIMATIC IPC647E – maximum compactness combined with maximum industrial functionality**

- Maximum compactness due to 4 free PCI/PCI Express slots for installing long expansion cards
- High thermal stability up to 50 °C ambient temperature, even at maximum processor performance
- High vibration/shock resistance thanks to special hard disk holders
- Intel Core i processors 8th Generation and Xeon
- ECC memory, optional
- SSD (solid-state drive) M.2 NVMe
- Front LED concept for efficient self-diagnostics, e.g. monitoring of hard disks in RAID1 configurations, fans or the status display for Ethernet
- High component/design continuity
- Motherboard developed and manufactured by Siemens
- Availability for at least 5 years
- Guaranteed spare parts availability for at least 5 years

###### **SIMATIC IPC847E – maximum expandability and industrial functionality**

- Maximum expandability due to 11 free PCI/PCI Express slots for installing long expansion cards
- High thermal stability up to 50 °C ambient temperature, even at maximum processor performance
- High vibration/shock resistance thanks to special hard disk holders
- Intel Core i processors 8th Generation and Xeon
- Optional RAID5 configuration (striping with parity) in hot swap drive bay
- RAID1 and RAID5 configurations with additional hot spare hard disk or SSD SATA optional
- ECC memory, optional
- SSD (solid-state drive) M.2 NVMe
- Front LED concept for efficient self-diagnostics, e.g. monitoring of hard disks in RAID1 configurations, fans or the status display for Ethernet
- High component/design continuity
- Motherboard developed and manufactured by Siemens
- Availability for at least 5 years
- Guaranteed spare parts availability for at least 5 years

###### **SIMATIC IPC1047 – maximum performance and expandability**

- Maximum computing capacity due to two Intel® Xeon® CPUs
- Maximum graphic capacity
- Product design for industrial environment

• Available

- Not available

<sup>1)</sup> Only with mainboard with C236 chipset

<sup>2)</sup> Limitation regarding ambient temperature.

<sup>3)</sup> Suitable for specific Linux versions in accordance with the specifications in the Siemens manufacturer's declaration "Suitable for Linux" (Linux is a trademark owned by Linus Torvald); see also: <http://support.automation.siemens.com/WW/view/en/10805661/134200>

<sup>4)</sup> Restrictions when using DVD±R/RW, SAS HDDs, SATA Enterprise HDDs  
and hard disks in removable drive bay

Additional information is available on the Internet at:

## Overview

### SIMATIC IPC347E

The SIMATIC IPC347E is an industrial PC in 19" rack design (4U).

It offers:

- Optimized price
- High performance
- Intel Core i technology of the 4th generation

## Technical specifications

### Article No.

#### *Configurations*

##### SIMATIC IPC347E

###### • Configuration 1

Intel Pentium Dual Core G3420 (2C/2T, 3.2 GHz, 3 MB cache); 500 GB HDD SATA, internal; 2 GB DDR3 SDRAM (1 x 2 GB); without operating system; 100/240 V AC industrial power supply. Interfaces:  
2 x Gbit Ethernet (RJ45),  
4 x USB at the rear,  
2 x USB at the front,  
1 x USB internal,  
1 x DVI-D, 1 x VGA,  
2 x serial, 2 x PS/2, audio

###### • Configuration 2

Intel Pentium Dual Core G3420 (2C/2T, 3.2 GHz, 3 MB cache); 500 GB HDD SATA, internal; 4 GB DDR3 SDRAM (1 x 4 GB); DVD±RW; without operating system; 100/240 V AC industrial power supply. Interfaces:  
2 x Gbit Ethernet (RJ45),  
4 x USB at the rear,  
2 x USB at the front,  
1 x USB internal,  
1 x DVI-D, 1 x VGA,  
2 x serial, 2 x PS/2, audio

###### • Configuration 3

Intel Core i5-4570S (4C/4T, up to 3.6 GHz, 6 MB cache); 500 GB HDD SATA, internal; 4 GB DDR3 SDRAM (1 x 4 GB); DVD±RW; without operating system; 100/240 V AC industrial power supply. Interfaces:  
2 x Gbit Ethernet (RJ45),  
4 x USB at the rear,  
2 x USB at the front,  
1 x USB internal,  
1 x DVI-D, 1 x VGA,  
2 x serial, 2 x PS/2, audio

###### • Configuration 4

Intel Core i5-4570S (4C/4T, up to 3.6 GHz, 6 MB cache); 500 GB HDD SATA, internal; 4 GB DDR3 SDRAM (1 x 4 GB); DVD±RW; Windows 7 Ultimate, 64-bit, SP1; 100/240 V AC industrial power supply.  
Interfaces:  
2 x Gbit Ethernet (RJ45),  
4 x USB at the rear,  
2 x USB at the front,  
1 x USB internal,  
1 x DVI-D, 1 x VGA,  
2 x serial, 2 x PS/2, audio

6AG4012-1CA21-0BX0

###### • Configuration 5

Intel Pentium Dual Core G3420 (2C/2T, 3.2 GHz, 3 MB cache); 500 GB HDD SATA, internal; 4 GB DDR3 SDRAM (1 x 4 GB); DVD±RW; Windows 7 Ultimate, 64-bit, SP1; 100/240 V AC industrial power supply. Interfaces:  
2 x Gbit Ethernet (RJ45),  
4 x USB at the rear,  
2 x USB at the front,  
1 x USB internal,  
1 x DVI-D, 1 x VGA,  
2 x serial, 2 x PS/2, audio

###### • Configuration 6

Intel Core i5-4570S (4C/4T, up to 3.6 GHz, 6 MB cache); 1 TB HDD SATA, internal; 8 GB DDR3 SDRAM (1 x 8 GB); DVD±RW; Windows 7 Ultimate, 64-bit, SP1; 100/240 V AC industrial power supply. Interfaces:  
2 x Gbit Ethernet (RJ45),  
4 x USB at the rear,  
2 x USB at the front,  
1 x USB internal,  
1 x DVI-D, 1 x VGA,  
2 x serial, 2 x PS/2, audio

###### • Configuration 7

Intel Core i5-4570S (4C/4T, up to 3.6 GHz, 6 MB cache); 256 GB SSD SATA, internal; 8 GB DDR3 SDRAM (1 x 8 GB); DVD±RW; Windows 7 Ultimate, 64-bit, SP1; 100/240 V AC industrial power supply. Interfaces:  
2 x Gbit Ethernet (RJ45),  
4 x USB at the rear,  
2 x USB at the front,  
1 x USB internal,  
1 x DVI-D, 1 x VGA,  
2 x serial, 2 x PS/2, audio

## Overview

### SIMATIC IPC547G

The SIMATIC IPC547G is a rugged industrial PC in 19" rack design (4U).

It offers:

- Maximum performance
- Attractive price
- Intel Core i/Xeon technology, 6th generation

## Technical specifications

## Overview

### SIMATIC IPC647E

The SIMATIC IPC647E is a very rugged, high-performance industrial PC in 19" rack design (2 U) with excellent industrial functionality.

It offers:

- Extreme compactness
- Extreme ruggedness
- Intel® Core® i / Xeon technology 8th generation

**Overview****SIMATIC IPC647D**

The SIMATIC IPC647D is a very rugged, high-performance industrial PC in 19" rack design (2 U) with excellent industrial functionality.

It offers:

- Extreme compactness
- Extreme ruggedness
- Intel® Core® i/Xeon technology 4th generation

**Technical specifications**

**Overview****SIMATIC IPC847E**

SIMATIC IPC847E is a very robust, high-performance industrial PC in 19" rack design (4 U) with excellent industrial functionality.

It offers:

- Maximum expandability
- Extreme ruggedness
- Intel® Core® i / Xeon technology 8th generation

Rack PC

### SIMATIC IPC847D

#### Overview

#### SIMATIC IPC847D

The SIMATIC IPC847D is an extremely robust, high-performance industrial PC in 19" rack design (4 U) with excellent industrial functionality.

It offers:

- Maximum expandability
- Extreme ruggedness
- Intel® Core® i / Xeon technology 4th generation

4

#### Technical specifications

## SIMATIC IPC1047

### Overview

### SIMATIC IPC1047

SIMATIC IPC1047 is an industrial PC for maximum computing and graphic capacity requirements with expansive expandability in 19" installation design (4 U).

It offers:

- Maximum computing capacity due to two Intel® Xeon® CPUs
- Maximum graphic capacity
- High degree of expandability
- Product design for industrial environment

## Overview

### SIMATIC Box PCs

SIMATIC Box PCs provide mechanical engineers, plant engineers and control cabinet makers with particularly rugged industrial PC systems for use in powerful yet compact applications.

The following device classes are available for various requirements:

- **SIMATIC IPC127E:** The ultra-compact, flexible, rugged industrial PC and IoT gateway in one
- **SIMATIC IPC227 (Nanobox PC):** The Box PC with optimized performance in compact design – maintenance-free and rugged
- **SIMATIC IPC327:** Fanless Basic Box PC at an appealing price
- **SIMATIC IPC427 (Microbox PC):** The powerful embedded IPC – maintenance-free with versatile configuration
- **SIMATIC IPC627/IPC827 (Box PC):** The high-end IPC – with maximum performance, functional scope, and expansion capability

#### Shared industrial functionality:

- Extreme compactness
- Certification for global marketing
- System-tested with SIMATIC components
- High vibration/shock load during operation
- Wide operational temperature range
- Robust data storage with CompactFlash/CFast or solid-state drive (SSD)
- Varied mounting possibilities for flexibility with installation
- Designed for 24-hour continuous operation
- Integrated parameterizable monitoring functions (temperature, fan, watchdog)
- High service friendliness
- Operating system pre-installed and activated for fast startup
- Motherboard developed and manufactured by Siemens
- Availability for 3 to 6 years
- Repairs and spare parts service for 5 years
- High component/design continuity
- Long-term availability of PC components from the Intel embedded line

### **SIMATIC IPC127 (Nanobox PC): Ultra-compact IoT gateway for data collection, pre-processing, and forwarding of the data**

- High-performance gateway: IoT gateway for the acquisition/collection/processing/transmission of data / integration of machinery in Cloud/Edge solutions
- For retrofitting and new systems: Networking/retrofitting of digitizing tasks in brownfield and greenfield systems due to ultra-compact design
- Optimized price/performance ratio; ideal for high quantities

### **SIMATIC IPC227 (Nanobox PC): The Box PC with optimized performance in compact design – maintenance-free and rugged**

- Maximum compactness with approx. 1 liter enclosure volume with integrated industrial power supply for minimum space requirements in the control cabinet
- Maximum flexibility thanks to several mounting options and interfaces on one side suitable for every installation situation
- Optimum variety of interfaces due to a large number of integrated interfaces such as a selectable serial connection and 2 x teaming-capable Gigabit-Ethernet
- Maximum industrial functionality due to closed enclosure for optimum dust protection and non-volatile retentive memory
- Further device options for optimum adaptation to the application with additional PCIe slot

### **SIMATIC IPC327: Fanless Basic Box PC at an appealing price**

- Low-cost platform for the industrial and industry-oriented field
- Flexible installation on the DIN rail or wall mounting, as well as simple connection of I/O devices due to a large number of interfaces
- Fanless industrial design
- Fast availability directly ex stock due to preferred variants

### **SIMATIC IPC427 (Microbox PC): The powerful embedded IPC – maintenance-free with versatile configuration**

- Fan-free operation
- High performance with maximum compactness and ruggedness for direct installation in the machine
- Optimized for embedded applications
- Flexibility expandable using one or two PCIe I/O cards (optional)
- Flexible installation options including standard rail/wall/front upright mounting, even outside control cabinets
- NVRAM for retentive data storage (optional)

### **SIMATIC IPC627/IPC827 (Box PC): The high-end IPC – with maximum performance, functional scope, and expansion capability**

- Maximum system performance for complex measuring, control and visualization tasks
- High flexibility with expansion slots and integral interfaces
- Flexible, space-saving installation with mounting brackets or portrait assembly kits
- Rugged design for direct installation in the machine
- RAID1 controller onboard
- Maximum processor performance up to an ambient temperature of 55 °C
- High system availability
- Battery-backed SRAM as memory for WinAC data
- 4 signaling LEDs

**PC-based Automation**

## Overview

### **SIMATIC IPC127E: Ultra-compact IoT gateway for data collection, pre-processing, and forwarding of the data**

Thanks to the ultra-compact enclosure, which has a volume of just 0.3 liters, the SIMATIC IPC127E can be easily – even subsequently – integrated into the control cabinet or directly on the machine with minimal space requirements.

The enclosed all-metal enclosure enables the new industrial PC to be used flexibly and maintenance-free even under harsh conditions. Thus the SIMATIC IPC127E makes it possible to reliably record / collect / process / transfer data directly in the production environment and can be flexibly used as an IoT gateway between the cloud or the corporate IT level and production. Thanks to pre-configured versions, the right product is available to users in a very short time.

## SIMATIC IPC227E

### Overview

### **SIMATIC IPC227E (Nanobox PC): The Box PC with optimized performance in compact design – maintenance-free and rugged**

The SIMATIC IPC227E Nanobox PC is an extremely compact and flexible embedded industrial PC.

Thanks to its closed, dust-protected all-metal enclosure, the IPC227E offers maximum industrial functionality for flexible use under harsh conditions—while remaining maintenance-free.

Modern interfaces and the option for expansion via a PCIe slot mean this Box PC can be easily integrated into the automation system. The latest Intel Dual-Core and Quad-Core processors ensure excellent performance here in an ultra-compact design.

### Technical specifications

## Overview

## SIMATIC IPC327E

Based on Intel Celeron process technology, the SIMATIC IPC327E Box PC represents a new IPC platform which has been specifically developed for cost-optimized, PC-based applications in industrial and industry-oriented environments.

It is above all distinguished by a large number of interfaces for easy connection to existing and new systems, fast availability from stock as well as a fanless industrial design.

## SIMATIC IPC427E

### Overview

### **SIMATIC IPC427E (Microbox PC): The powerful embedded IPC – maintenance-free with versatile configuration**

Ready-to-run, complete solution:

- Ultra-compact
- Maintenance-free
- Intel Core i technology of the sixth generation

4

### Technical specifications

|   |   |
|---|---|
| Article number  | <b>6AG4141-.....</b><br>SIMATIC IPC427E (MicroBOX PC)   |
| <b>Installation type/mounting</b>                         |   |
| Mounting  | DIN rail, wall mounting, portrait mounting  |
| Design  | Box PC, built-in unit   |
| <b>Supply voltage</b>                                     |   |
| Type of supply voltage                                    | 24 V DC   |
| <b>Line frequency</b>                                     |   |
| • Rated value 50 Hz                                       | Yes   |
| • Rated value 60 Hz                                       | Yes   |
| <b>Processor</b>  |   |
| Processor type  | Celeron G3902 (2C/2T, 1.6 GHz, 2 MB Cache);<br>Core i3-6102E (2C/4T, 1.9 GHz, 3 MB Cache);<br>Core i5-6442EQ (4C/4T, 1.9 (2.7) GHz, 6 MB Cache, iAMT);<br>Xeon E3-1505L v5 (4C/8T, 2.0 (2.8) GHz, 8 MB Cache, iAMT) |
| <b>Graphic</b>  |   |
| Graphics controller                                       | Intel HD graphics controller  |
| <b>Drives</b>   |   |
| Optical drives  | possible as external drive via USB  |
| Hard disk   | 2.5" SATA ≥ 320 GB  |
| SSD   | Yes; 1x 128 GB, 1x 240 GB SSD, 1x 480 GB SSD  |
| <b>Memory</b>   |   |
| Type of memory  | DDR4 SO-DIMM  |
| Main memory   | 4 GB to 16 GB, ECC optional   |
| <b>Data areas and their retentivity</b>                   |   |
| Retentive data area (incl. timers, counters, flags), max. | 512 kbyte; 128 KB can be stored in the buffer time; optional  |
| <b>Hardware configuration</b>                             |   |
| <b>Slots</b>  |   |
| • free slots  | 2x PCIe; optional: 1x PCIe (x4);<br>2x PCIe (x1, x4), with card retainer  |
| <b>Interfaces</b>   |   |
| Number of industrial Ethernet interfaces                  | 3; Ethernet (2x RJ45, optional 3x RJ45)   |
| USB port  | 4x USB 3.0  |
| Connection for keyboard/mouse                             | USB / USB   |
| serial interface  | Without / 2x COM (RS 232 / 485 / 422; switchable)   |
| <b>Video interfaces</b>                                   |   |
| • Graphics interface                                      | 2x DisplayPort  |
| <b>Industrial Ethernet</b>                                |   |
| • Industrial Ethernet interface                           | 3x Ethernet (RJ45)  |
| - 100 Mbps  | Yes   |
| - 1000 Mbps   | Yes   |

**Technical specifications (continued)**

**Overview****SIMATIC IPC427D (Microbox PC): The powerful embedded IPC – maintenance-free with versatile configuration**

Ready-to-run, complete solution:

- Ultra-compact
- Maintenance-free
- Intel Core i-technology of the third generation

**Technical specifications**

| <b>Installation type/mounting</b>                         |  |   |
| Mounting  | DIN rail, wall mounting, portrait mounting   |   |
| Design  | Box PC, built-in unit  |   |
| <b>Supply voltage</b>                                     |  |   |
| Type of supply voltage                                    | 24 V DC  | 24 V DC   |
| <b>Processor</b>  |  |   |
| Processor type  | Celeron 827E (1C/1T, 1.40 GHz,<br>1.5 MB Cache);<br>Core i3-3217UE (2C/4T, 1.60 GHz,<br>3 MB Cache);<br>Core i7-3517UE (2C/4T,<br>1.70 (2.80) GHz, 4 MB Cache, iAMT) |   |
| <b>Graphic</b>  |  |   |
| Graphics controller                                       | Intel HD Graphics, Intel HD Graphics 4000  |   |
| <b>Drives</b>   |  |   |
| Hard disk   | 2.5" SATA ≥ 320 GB   | 2.5" SATA ≥ 320 GB  |
| SSD   | Yes; 1x 240 GB SSD, 1x 480 GB SSD  |   |
| <b>Memory</b>   |  |   |
| Type of memory  | DDR3 SO-DIMM   | DDR3 SO-DIMM  |
| Main memory   | 2 / 4 / 8 GB; ECC optional   | 2 / 4 / 8 GB; ECC optional  |
| <b>Data areas and their retentivity</b>                   |  |   |
| Retentive data area (incl. timers, counters, flags), max. | 512 kbyte; 128 KB can be stored in the buffer time; optional   | 512 kbyte; 128 KB can be stored in the buffer time; optional                          |
| <b>Hardware configuration</b>                             |  |   |
| <b>Slots</b>  |  |   |
| • free slots  | 2x PCIe; optional:<br>1x PCIe (x4);<br>2x PCIe (x1, x4), with card retainer  | 2x PCI; optional:<br>1x PCI & 1x PCIe (x16);<br>2x PCIe (x4, x16); with card retainer |
| <b>Interfaces</b>   |  |   |
| PROFIBUS/MPI  | Optionally onboard, isolated, max. 12 Mbps, compatible with CP 5611  |   |
| Number of PROFINET interfaces                             | 1; 3 ports (incl. switch)  | 1; 3 ports (incl. switch)   |
| USB port  | 4x USB 3.0   | 4x USB 3.0  |
| Connection for keyboard/mouse                             | USB / USB  | USB / USB   |
| serial interface  | COM1: 1x RS 232, COM2 (optional): 1x RS 232  | COM1: 1x RS 232, COM2 (optional): 1x RS 232   |
| <b>Video interfaces</b>                                   |  |   |
| • Graphics interface                                      | 1x DisplayPort and 1x DVI-I; 1x VGA via adapter cable (optional)   | 1x DisplayPort and 1x DVI-I; 1x VGA via adapter cable (optional)                      |
| <b>Industrial Ethernet</b>                                |  |   |
| • Industrial Ethernet interface                           | Onboard, 2x 10/100/1 000 Mbit, RJ45, no plug-in card necessary   | Onboard, 2x 10/100/1 000 Mbit, RJ45, no plug-in card necessary                        |
| - 100 Mbps  | Yes  | Yes   |
| - 1000 Mbps   | Yes  | Yes   |

## SIMATIC IPC627E

### Overview

### **SIMATIC IPC627E (Box PC): The high-end IPC with maximum performance, functional scope, and expansion capability**

It offers:

- Maximum performance in the smallest space
- Intel Core i technology
- Removable hard disks (RAID1)

4

### Technical specifications

|   |   |
|---|---|
| Article number  | <b>6AG4131-3....-....</b><br>SIMATIC IPC627E (Box PC)   |
| <b>Installation type/mounting</b>                         |   |
| Mounting  | Wall mounting, portrait mounting  |
| Design  | Box PC, built-in unit   |
| <b>Supply voltage</b>                                     |   |
| Type of supply voltage                                    | 100/240 V AC (autorange); 24 V DC   |
| <b>Line frequency</b>                                     |   |
| • Rated value 50 Hz                                       | Yes   |
| • Rated value 60 Hz                                       | Yes   |
| <b>Mains buffering</b>                                    |   |
| • Mains/voltage failure stored energy time                | 20 ms   |
| <b>Processor</b>  |   |
| Processor type  | Celeron G4900 (2C/2T, 3.1 GHz, 2 MB cache; VT-d); Core i3-8100 (4C/4T, 3.6 GHz, 6 MB cache, VT-d); Core i7-8700 (6C/12T, 3.2 (4.6) GHz, 12 MB cache, VT-d, AMT) |
| Chipset   | Intel C246  |
| <b>Graphic</b>  |   |
| Graphics controller                                       | Intel UHD Graphics 630 (Core i); Intel UHD Graphics 610 (Celeron)   |
| <b>Drives</b>   |   |
| Hard disk   | 2.5" SATA ≥ 320 GB  |
| SSD   | Yes; M.2 SSD NVMe > 512 GB; SSD 2.5" SATA > 480 GB; RAID1 2x SSD 2.5" > 480 GB in removable drive bay   |
| <b>Memory</b>   |   |
| Type of memory  | DDR4-2666 DIMM  |
| Main memory   | 4 / 8 / 16 / 32 / 64 GB   |
| <b>Data areas and their retentivity</b>                   |   |
| Retentive data area (incl. timers, counters, flags), max. | 512 kbyte   |
| <b>Hardware configuration</b>                             |   |
| <b>Slots</b>  |   |
| • free slots  | 2x PCI; optional:<br>1x PCI & 1x PCIe (x16);<br>2x PCIe (x4, x16); with card retainer   |
| <b>Interfaces</b>   |   |
| Number of industrial Ethernet interfaces                  | 3; 3x Gigabit Ethernet (IE/PN), RJ45  |
| USB port  | 6x USB 3.1 Gen. 2 (2x type C)   |
| Connection for keyboard/mouse                             | USB / USB   |
| serial interface  | 1x COM  |
| <b>Video interfaces</b>                                   |   |
| • Graphics interface                                      | 2x DisplayPort; 1x DVI-D  |
| <b>Industrial Ethernet</b>                                |   |
| • Industrial Ethernet interface                           | 3x Gigabit Ethernet (IE/PN), RJ45   |
| - 100 Mbps  | Yes   |
| - 1000 Mbps   | Yes   |

## SIMATIC IPC627D

### Overview

IPC627D with DVD drive

### **SIMATIC IPC627D (Box PC): The high-end IPC – with maximum performance, functional scope and expansion capability**

It offers:

- Maximum performance in the smallest space
- Intel Xeon technology
- Removable hard disks (RAID1)

4

### Technical specifications

|   |   |
|---|---|
| Article number  | <b>6AG4131-2....-....</b><br>SIMATIC IPC627D (Box PC)   |
| <b>Installation type/mounting</b>                         |   |
| Mounting  | Wall mounting, portrait mounting  |
| Design  | Box PC, built-in unit   |
| <b>Supply voltage</b>                                     |   |
| Type of supply voltage                                    | 100/240 V AC (autorange);<br>24 V DC  |
| <b>Line frequency</b>                                     |   |
| • Rated value 50 Hz                                       | Yes   |
| • Rated value 60 Hz                                       | Yes   |
| <b>Mains buffering</b>                                    |   |
| • Mains/voltage failure stored energy time                | 20 ms   |
| <b>Processor</b>  |   |
| Processor type  | Celeron G1820TE<br>(2C/2T, 2.2 GHz, 2 MB Cache);<br>Core i3-4330TE<br>(2C/4T, 2.4 GHz, 4 MB Cache);<br>Xeon E3-1268L v3<br>(4C/8T, 2.3 (3.3) GHz, 8 MB Cache,<br>AMT)   |
| Chipset   | Intel DH82C226 PCH  |
| <b>Graphic</b>  |   |
| Graphics controller                                       | Intel HD graphics controller<br>P4600 GT2 (Xeon, Core i3);<br>Intel HD graphics controller<br>(Celeron)   |
| <b>Drives</b>   |   |
| Optical drives  | DVD±R±RW combi-drive, optional  |
| Hard disk   | 3.5" SATA ≥ 500 GB, optional:<br>3.5" SATA ≥ 1 TB;<br>RAID1 2x 2.5" SATA ≥ 320 GB;<br>solid-state drive (SSD) ≥ 240 GB;<br>all hard disk drives within the<br>enclosure are vibration-damped;<br>RAID1 2x 2.5" SATA ≥ 320 GB byte in<br>removable drive bay |
| SSD   | Yes; ≥ 240 GB optional  |
| <b>Memory</b>   |   |
| Type of memory  | DDR3 1600 DIMM  |
| Main memory   | 2 / 4 / 8 / 16 GB; ECC optional   |
| <b>Data areas and their retentivity</b>                   |   |
| Retentive data area (incl. timers, counters, flags), max. | 2 Mbyte; 128 KB can be stored<br>in the buffer time; optional   |
| <b>Hardware configuration</b>                             |   |
| <b>Slots</b>  |   |
| • free slots  | 2x PCI; optional:<br>1x PCI & 1x PCIe (x16);<br>2x PCIe (x4, x16); with card retainer   |

| <b>Interfaces</b>  |   |   |  |
| PROFIBUS/MPI   | Optionally onboard, isolated, max. 12 Mbit/s, comp. with CP 5622  | IP (at the front)   | IP20   |
| Number of industrial Ethernet interfaces                                   | 2; 2x RJ45 (independent)  | IP (rear)   | IP20   |
| Number of PROFINET interfaces  | 3; Optional   | <b>Standards, approvals, certificates</b>                     |  |
| USB port   | 4x USB 3.0  | CE mark   | Yes  |
| Connection for keyboard/mouse serial interface                             | USB / USB   | UL approval   | Yes  |
| parallel interface   | 1x COM1 (RS 232), optional:<br>1x COM2 (RS 232)<br>optional LPT1  | • UL 508  | Yes  |
| <b>Video interfaces</b>  |   | cULus   | Yes  |
| • Graphics interface   | 1x DisplayPort and 1x DVI-I;<br>1x VGA via adapter cable (optional)   | RCM (formerly C-TICK)   | Yes  |
| <b>Industrial Ethernet</b>   |   | KC approval   | Yes  |
| • Industrial Ethernet interface  | Onboard, 2x 10 / 100 / 1000 Mbit, RJ45  | FCC   | Yes  |
| - 100 Mbps / 1000 Mbps   | Yes / Yes   | EMC   | CE,<br>EN 61000-6-3:2007 +A1:2011,<br>EN 61000-6-2:2005  |
| <b>Integrated Functions</b>  |   |   |  |
| <b>Monitoring functions</b>  |   |   |  |
| • Temperature monitoring   | Yes   | <b>Marine approval</b>  |  |
| • Watchdog   | Yes   | • Germanischer Lloyd (GL)                                     | Yes  |
| • Status LEDs  | Yes   | • American Bureau of Shipping (ABS)                           | Yes  |
| • Fan  | Yes   | • Bureau Veritas (BV)   | Yes  |
| • Monitoring function via network  | Optional  | • Det Norske Veritas (DNV)                                    | Yes  |
| <b>EMC</b>   |   |   |  |
| <b>Interference immunity against discharge of static electricity</b>       |   |   |  |
| • Interference immunity against discharge of static electricity            | ±6 kV contact discharge acc. to IEC 61000-4-2;<br>±8 kV air discharge acc. to IEC 61000-4-2   | • Lloyds Register of Shipping (LRS)                           | Yes  |
| <b>Interference immunity against high-frequency electromagnetic fields</b> |   |   |  |
| • Interference immunity against high frequency radiation                   | 10 V/m for 80 - 1000 MHz and 1.4 - 2 GHz, 80% AM acc. to IEC 61000-4-3;<br>3 V/m for 2 - 2.7 GHz, 80% AM acc. to IEC 61000-4-3;<br>10 V for 10 kHz - 80 MHz, 80% AM acc. to IEC 61000-4-6 | • Nippon Kaiji Kyokai (Class NK)                              | Yes  |
| <b>Interference immunity to cable-borne interference</b>                   |   |   |  |
| • Interference immunity on supply cables                                   | ±2 kV acc. to IEC 61000-4-4, burst;<br>±1 kV acc. to IEC 61000-4-5, surge symmetric;<br>±2 kV acc. to IEC 61000-4-5, surge asymmetric   | • Relative humidity   | Tested according to IEC 60068-2-78, IEC 60068-2-30: Operation: 5% to 80% at 25 °C (no condensation), Storage: 5% to 95% at 25 °C (no condensation) |
| • Interference immunity on signal cables >30m                              | ±2 kV acc. to IEC 61000-4-5, surge, length > 30 m   | <b>Ambient conditions</b>                                     |  |
| • Interference immunity on signal cables < 30m                             | ±1 kV acc. to IEC 61000-4-4; burst; length < 3 m; ±2 kV acc. to IEC 61000-4-4; burst; length > 3 m  | • Ambient temperature during operation                        | +5 °C up to 55 °C  |
| <b>Interference immunity against voltage surge</b>                         |   |   |  |
| • asymmetric interference  | ±2 kV acc. to IEC 61000-4-5, surge asymmetric   | <b>Relative humidity</b>                                      |  |
| • symmetric interference   | ±1 kV acc. to IEC 61000-4-5, surge symmetric  | • Vibration resistance during operation acc. to IEC 60068-2-6 | Tested according to DIN IEC 60068-2-6: 10 Hz to 58 Hz: 0.075 mm;<br>58 Hz to 500 Hz 9.8 m/s <sup>2</sup> (1g)                                      |
| <b>Interference immunity to magnetic fields</b>                            |   | <b>Shock testing</b>  |  |
| • Interference immunity to magnetic fields at 50 Hz                        | 100 A/m; to IEC 61000-4-8   | • Shock load during operation                                 | Tested to DIN IEC 60068-2-29: 50 m/s <sup>2</sup> (5 g), 30 ms, 100 shocks   |
| <b>Emission of conducted and non-conducted interference</b>                |   |   |  |
| • Interference emission via line/AC current cables                         | EN 61000-6-3, EN 61000-6-4, CISPR 22 Class B, FCC Class A   | <b>Operating systems</b>                                      |  |
| Operating system   |   | Operating system  | Windows 7 Ultimate, 32-bit/64-bit, MUI;<br>Windows Embedded Standard 7 P, 32-bit, MUI;<br>Windows 10 Enterprise 2015 or 2016 LTSB, 64-bit, MUI     |
| pre-installed operating system without operating system                    |   | pre-installed operating system                                | Yes  |
| pre-installed operating system   |   | pre-installed operating system                                | Yes  |
| SIMATIC Software   |   | Software  | Optional package with SIMATIC WinCC or WinAC RTX   |
| <b>Dimensions</b>  |   |   |  |
| Width  | 312 mm  | Width   | 312 mm   |
| Height   | 81 mm; with DVD drive: 105 mm   | Height  | 81 mm; with DVD drive: 105 mm  |
| Depth  | 301 mm; incl. mounting rail   | Depth   | 301 mm; incl. mounting rail  |

## SIMATIC IPC827D

### Overview

IPC827D with opened DVD drive

### **SIMATIC IPC827D (Box PC): The high-end IPC – with maximum performance, functional scope and expansion capability**

It offers:

- Maximum performance and high expandability
- with Intel Xeon technology
- Removable hard disks (RAID1)

### Technical specifications

|  |   |
|--|---|
| Article number   | <b>6AG4132-2....-....</b><br>SIMATIC IPC827D (Box PC)   |
| <b>Installation type/mounting</b>                            |   |
| Mounting   | Wall mounting, portrait mounting  |
| Design   | Box PC, built-in unit   |
| <b>Supply voltage</b>  |   |
| Type of supply voltage                                       | 100/240 V AC (autorange);<br>24 V DC  |
| <b>Line frequency</b>  |   |
| • Rated value 50 Hz  | Yes   |
| • Rated value 60 Hz  | Yes   |
| <b>Mains buffering</b>                                       |   |
| • Mains/voltage failure stored energy time                   | 20 ms   |
| <b>Processor</b>   |   |
| Processor type   | Celeron G1820TE<br>(2C/2T, 2.2 GHz, 2 MB Cache);<br>Core i3-4330TE<br>(2C/4T, 2.4 GHz, 4 MB Cache);<br>Xeon E3-1268L v3<br>(4C/8T, 2.3 (3.3) GHz, 8 MB Cache,<br>AMT)   |
| Chipset  | Intel DH82C226 PCH  |
| <b>Graphic</b>   |   |
| Graphics controller  | Intel HD graphics controller<br>P4600 GT2 (Xeon, Core i3);<br>Intel HD graphics controller<br>(Celeron)   |
| <b>Drives</b>  |   |
| Optical drives   | DVD±R±RW combi-drive, optional  |
| Hard disk  | 3.5" SATA ≥ 500 GB,<br>optional: 3.5" SATA ≥ 1 TB;<br>RAID1 2x 2.5" SATA ≥ 320 GB;<br>solid-state drive (SSD) ≥ 240 GB;<br>all hard disk drives within the<br>enclosure are vibration-damped;<br>RAID1 2x 2.5" SATA ≥ 320 GB byte<br>in removable drive bay |
| SSD  | Yes; ≥ 240 GB optional  |
| <b>Memory</b>  |   |
| Type of memory   | DDR3 1600 DIMM  |
| Main memory  | 2 / 4 / 8 / 16 GB; ECC optional   |
| <b>Data areas and their retentivity</b>                      |   |
| Retentive data area (incl. timers,<br>counters, flags), max. | 2 Mbyte; 128 KB can be stored<br>in the buffer time; optional   |
| <b>Hardware configuration</b>                                |   |
| <b>Slots</b>   |   |
| • free slots   | 3x PCI, 1x PCIe (x4), 1x PCIe (x16);<br>with card retainer  |

| • Fan  | Yes   | • Bureau Veritas (BV)   | Yes  |
| • Monitoring function via network  | Optional  | • Det Norske Veritas (DNV)                                    | Yes  |
| <b>EMC</b>   |   | • Lloyds Register of Shipping (LRS)                           | Yes  |
| <b>Interference immunity against discharge of static electricity</b>       | ±6 kV contact discharge acc. to IEC 61000-4-2;<br>±8 kV air discharge acc. to IEC 61000-4-2   | • Nippon Kaiji Kyokai (Class NK)                              | Yes  |
| <b>Interference immunity against high-frequency electromagnetic fields</b> |   | <b>Ambient conditions</b>                                     |  |
| • Interference immunity against high frequency radiation                   | 10 V/m for 80 - 1000 MHz and 1.4 - 2 GHz, 80% AM acc. to IEC 61000-4-3;<br>3 V/m for 2 - 2.7 GHz, 80% AM acc. to IEC 61000-4-3;<br>10 V for 10 kHz - 80 MHz, 80% AM acc. to IEC 61000-4-6 | <b>Ambient temperature during operation</b>                   | +5 °C up to 55 °C  |
| <b>Interference immunity to cable-borne interference</b>                   |   | <b>Relative humidity</b>                                      |  |
| • Interference immunity on supply cables                                   | ±2 kV acc. to IEC 61000-4-4, burst;<br>±1 kV acc. to IEC 61000-4-5, surge symmetric;<br>±2 kV acc. to IEC 61000-4-5, surge asymmetric   | • Relative humidity   | Tested according to IEC 60068-2-78, IEC 60068-2-30; Operation: 5% to 80% at 25 °C (no condens.), Storage: 5% to 95% at 25 °C (no condensation) |
| • Interference immunity on signal cables >30m                              | ±2 kV acc. to IEC 61000-4-5, surge, length > 30 m   | <b>Vibrations</b>   |  |
| • Interference immunity on signal cables < 30m                             | ±1 kV acc. to IEC 61000-4-4; burst; length < 3 m;<br>±2 kV acc. to IEC 61000-4-4; burst; length > 3 m   | • Vibration resistance during operation acc. to IEC 60068-2-6 | Tested according to DIN IEC 60068-2-6: 10 Hz to 58 Hz: 0.075 mm;<br>58 Hz to 500 Hz 9.8 m/s <sup>2</sup> (1g)                                  |
| <b>Interference immunity against voltage surge</b>                         |   | <b>Shock testing</b>  |  |
| • asymmetric interference  | ±2 kV acc. to IEC 61000-4-5, surge asymmetric   | • Shock load during operation                                 | Tested to DIN IEC 60068-2-29: 50 m/s <sup>2</sup> (5 g), 30 ms, 100 shocks   |
| • symmetric interference   | ±1 kV acc. to IEC 61000-4-5, surge symmetric  | <b>Operating systems</b>                                      |  |
| <b>Interference immunity to magnetic fields</b>                            |   | Operating system  | Windows 7 Ultimate, 32-bit/64-bit, MUI;<br>Windows Embedded Standard 7 P, 32-bit, MUI;<br>Windows 10 Enterprise 2015 or 2016 LTSB, 64-bit, MUI |
| • Interference immunity to magnetic fields at 50 Hz                        | 100 A/m; to IEC 61000-4-8   | pre-installed operating system without operating system       | Yes<br>Yes   |
| <b>Emission of conducted and non-conducted interference</b>                |   | <b>pre-installed operating system</b>                         |  |
| • Interference emission via line/AC current cables                         | EN 61000-6-3, EN 61000-6-4, CISPR 22 Class B, FCC Class A   | • Windows 7   | Yes; Ultimate 32 bit or 64 bit   |
|  |   | • Windows 10 Enterprise                                       | Yes; Windows 10 Enterprise 2015 or 2016 LTSB, 64-bit, MUI  |
| <b>Dimensions</b>  |   |   |  |
| Width  | 312 mm  |   |  |
| Height   | 155 mm; With DVD drive: 179 mm  |   |  |
| Depth  | 301 mm; incl. mounting rail   |   |  |

Note:

Please assemble the required IPC configuration using the TIA Selection Tool or the configurator in the Industry Mall in order to ensure suitability; we do not accept any liability for configurations compiled by users themselves.

## PC-based Automation

### Industrial PC

#### Panel PC

##### Overview

SIMATIC Panel PCs are suitable thanks to their high industrial compatibility for use in control cabinets, consoles and control panels, as well as directly on the machine.

Typical areas of application can be found in both factory and process automation.

There is a broad range of robust, high-performance SIMATIC Panel PCs available for different requirements.

##### **Shared industrial functionality**

- High-quality components and modules with a high MTBF (mean time between failure), which also ensure 24-hour operation in the extended temperature range
- High swing/shock capacity of the devices through special hard-disk suspensions, locked connectors and card retainers
- Rugged housing model with high electromagnetic compatibility (EMC) and integrated industrial power supplies (also in accordance with NAMUR)
- Service-friendly device design
- Bright, brilliant displays in different sizes from 7" to 22"
- Rugged fronts protected from dust, humidity and chemical substances (front-side IP65 degree of protection)

##### **SIMATIC IPC277: The Panel PC with optimized performance – maintenance-free and compact with displays from 7"**

- High degree of flexibility for selecting rugged widescreen fronts from 7" to 19" for a more freely configurable display area
- High resolution, large viewing angle, and up to 100% dimmable backlighting for a brilliant display with optimized power consumption
- Absolutely maintenance-free due to the use of CompactFlash/CFast or SSD as mass storage and fanless operation up to 50 °C ambient temperature
- Maximum industrial functionality due to non-volatile retentive memory (option)
- Ready-to-use embedded bundles with visualization and/or control software

##### **SIMATIC IPC377: The industrial Basic Panel PC at an appealing price**

- Low-cost platform for visualization in the industrial and industry-oriented field
- Flexible installation in the control cabinet or via VESA, as well as simple connection of I/O devices due to a large number of interfaces
- Fanless industrial design
- Available directly ex stock

##### **SIMATIC IPC477: The powerful embedded Panel PC – maintenance-free with versatile configuration**

- Compact design
- High performance with highly compact design and ruggedness
- Flexible expansion using a PCIe I/O card (optional)
- No rotating parts (without fan and hard disk)
- High security due to use of the operating system
- Windows Embedded Standard 7
- Ready-to-use devices with optionally pre-installed software
- HMI: Innovative HMI software WinCC RT Advanced (inc. logging and recipes)
- Software Controller: with real-time capable software PLC
- Retentive memory onboard (NV-RAM, can be used with software controller)
- Available as PRO version (all-round IP65 degree of protection) with multi-touch

##### **SIMATIC IPC677D: The high-end Panel PC – with maximum performance, functional scope and expansion capability**

- Rugged, expandable industrial PC with choice of front panels
- Rugged design for industrial use
- Complete PC openness
- Optional PROFIBUS or PROFINET onboard
- All processors with Dual-Core

#### Note:

Do you need a specific modification or extension to the products described here? Then refer to "Customized Automation". There you will find information about additional and generally available sector-specific products as well as options for customer-specific modification and adaptation.

Examples are:

- Specific front panels for SIMATIC Panel PC, e.g.  
honing oil-resistant or with lateral function/movement keys
- SIMATIC HMI Net Panel with 46" large-scale display

## Overview

### **SIMATIC IPC277E: The Panel PC with optimized performance – maintenance-free and compact with displays from 7"**

The SIMATIC IPC277E Nanopanel PC is a flexible embedded industrial PC with rugged and durable displays.

Technologically it is based on the IPC227E Nanobox PC and thus offers maximum industrial functionality for flexible use even under harsh conditions – all without the need for maintenance.

The Panel PC is characterized by modern interfaces and a high degree of flexibility in the selection of the display.

The latest Intel Dual-Core and Quad-Core processors ensure excellent performance here for visualization and control tasks.

| Article number   | <b>6AV7882-0...0-...0</b><br>SIMATIC IPC277E   |
| <b>General information</b>   |  |
| Product type designation   | IPC277E  |
| <b>Installation type/mounting</b>  |  |
| Design   | Panel PC, built-in unit  |
| maximum permissible installation angle +/-                                 | 45°  |
| <b>Supply voltage</b>  |  |
| Type of supply voltage   | 24 V DC  |
| <b>Mains buffering</b>   |  |
| • Mains/voltage failure stored energy time                                 | 20 ms  |
| <b>Processor</b>   |  |
| Processor type   | Intel Celeron N2807 / N2930  |
| <b>Drives</b>  |  |
| SSD  | Yes; ≥ 128 GB optional   |
| <b>Memory</b>  |  |
| Type of memory   | DDR3L  |
| Main memory  | 2 / 4 / 8 GB   |
| <b>Data areas and their retentivity</b>                                    |  |
| Retentive data area (incl. timers, counters, flags), max.                  | 512 kbyte; 128 KB can be stored in the buffer time; optional   |
| <b>Interfaces</b>  |  |
| USB port   | 1x USB 3.0 / 3x USB 2.0<br>(7"/9": 2x USB 2.0)   |
| Connection for keyboard/mouse  | USB / USB  |
| serial interface   | 1x COM (1x RS 232 / 422 / 485), selectable in the BIOS   |
| <b>Video interfaces</b>  |  |
| • Graphics interface   | 1x DisplayPort   |
| <b>Industrial Ethernet</b>   |  |
| • Industrial Ethernet interface  | Onboard, 2x 10 / 100 / 1000 Mbit, RJ45   |
| - 100 Mbps   | Yes  |
| - 1000 Mbps  | Yes  |
| <b>Integrated Functions</b>  |  |
| <b>Monitoring functions</b>  |  |
| • Temperature monitoring   | Yes  |
| • Watchdog   | Yes  |
| • Status LEDs  | No   |
| • Fan  | No   |
| • Monitoring function via network  | Optional   |
| <b>EMC</b>   |  |
| <b>Interference immunity against discharge of static electricity</b>       |  |
| • Interference immunity against discharge of static electricity            | ±6 kV contact discharge acc. to IEC 61000-4-2;<br>±8 kV air discharge acc. to IEC 61000-4-2  |
| <b>Interference immunity against high-frequency electromagnetic fields</b> |  |
| • Interference immunity against high frequency radiation                   | 10 V/m, 80 MHz to 2 GHz,<br>80 % AM acc. to IEC 61000-4-3;<br>3 V/m, 2 GHz to 2.7 GHz, 80 % AM acc. to IEC 61000-4-3;<br>10 V, 10 kHz to 80 MHz, 80 % AM acc. to IEC 61000-4-6 |

## SIMATIC IPC377E

### Overview

### SIMATIC IPC377E

Based on Intel Celeron process technology, the SIMATIC IPC377E Box PC represents a new IPC platform which has been specifically developed for cost-optimized, PC-based applications in industrial and industry-oriented environments.

The SIMATIC IPC377E Panel PC is characterized by industrial touch displays in the sizes 12", 15" and 19" as well as a variety of interfaces. Fast availability from stock as well as the fanless industrial design complete the concept.

Panel PC

## SIMATIC IPC477E

### Overview

### **SIMATIC IPC477E: The powerful embedded Panel PC – maintenance-free with versatile configuration**

- Embedded PC platform with extremely high industrial compatibility for demanding tasks in the field of PC-based automation
- Maintenance-free (no rotating components such as fan and hard disk)
- Rugged construction: The PC is resistant to even the harshest mechanical stress and extremely reliable in operation
- Compact design
- Battery-independent retentive memory onboard
- High degree of investment security
- Fast integration capability
- Built-in versions
  - 15" TFT touch
  - 19" TFT touch
  - 22" TFT touch
  - 15" TFT multi-touch
  - 19" TFT multi-touch
  - 22" TFT multi-touch
  - 24" TFT multi-touch

<sup>1)</sup> For an up-to-date overview, see the SIMATIC PC Online Configurator: <http://www.siemens.com/pc-configurator>

<sup>2)</sup> TPM = Trusted Platform Module

**Overview**

Now available as fully-enclosed IPC477D PRO 15", 19" or 22" with degree of protection IP65.

The following front versions are available:

- Built-in versions
  - 12" TFT touch
  - 15" TFT touch
  - 15" TFT touch/key
  - 19" TFT touch
  - 22" TFT touch
  - 15" TFT multi-touch
  - 19" TFT multi-touch
  - 22" TFT multi-touch
  - 15" TFT multi-touch with marine approval
  - 19" TFT multi-touch with marine approval
  - 22" TFT multi-touch with marine approval

***SIMATIC IPC477D: The powerful embedded Panel PC – maintenance-free with versatile configuration***

- Embedded PC platform with extremely high industrial compatibility for demanding tasks in the field of PC-based automation
- Maintenance-free (no rotating components such as fan and hard disk)
- Rugged construction: The PC is resistant to even the harshest mechanical stress and is extremely reliable in operation
- Compact design
- Battery-independent retentive memory onboard
- High degree of investment security
- Fast integration capability

<sup>1)</sup> Built-to-order versions with a delivery time of max. 15 working days and with identified repair.

<sup>2)</sup> Optional operating system/software only if no internal mass storage or HDD

<sup>3)</sup> Only with work memory and NVRAM

<sup>4)</sup> TPM = Trusted Platform Module

#### Note:

Please assemble the required IPC configuration using the TIA Selection Tool or the configurator in the Industry Mall in order to ensure suitability; we do not accept any liability for configurations compiled by users themselves.

# PC-based Automation

Industrial PC

Panel PC

## SIMATIC IPC677D

### Overview

### **SIMATIC IPC677D: The high-end Panel PC – with maximum performance, functional scope and expansion capability**

PC platform with extremely high industrial compatibility for demanding tasks in the field of PC-based automation.

Rugged construction: The PC is resistant to even the harshest mechanical stress and is extremely reliable in operation.

- Compact design
- High degree of investment protection
- Fast integration capability

The following widescreen front variants are available:

- 15", 19" or 22" resistive single-touch color display with front USB
- 15", 19" or 22" capacitive multi-touch color display

## PC-based Automation

Industrial PC

Tablet PC

### SIMATIC Industrial Tablet PC

#### Overview

#### SIMATIC Industrial Tablet PC

The SIMATIC Industrial Tablet PC takes the performance of SIMATIC industry PCs to the tablet format.

With a large number of functional expansions such as a 1D/2D bar code reader or user identification by RFID, it taps diverse possibilities of use.

#### **SIMATIC ITP1000: Industrial rugged PC**

- High-quality components and modules with a high MTBF (mean time between failure), which also ensure 24-hour operation in the extended temperature range up to +45 °C
- Rugged enclosure designs with high electromagnetic compatibility (EMC)
- Hardware available in the long term

#### Powerful and many functions on board

- High-performance Intel Core i5-6442EQ or Intel Celeron G3902E notebook CPU
- Many interfaces on board:  
LAN, SD card reader, USB interfaces, RS232, audio
- WLAN and Bluetooth integrated
- RFID, bar code reader (1D/2D) and camera for a highly diverse range of mobile applications
- Windows 7 Ultimate 64-bit / Windows 10 IoT Enterprise 2016 LTSB (64-bit)

### Note:

Please assemble the required IPC configuration using the TIA Selection Tool or configurator in the Industry Mall in order to ensure suitability; we do not accept any liability for configurations compiled by users themselves.

**Overview****Docking station**

A docking station is available for the SIMATIC Industrial Tablet PC.

In addition to being able to charge the device, the docking station also features one Ethernet, one DisplayPort and two USB interfaces.

With its external monitor, mouse and keyboard, the SIMATIC ITP1000 is upgraded into the equivalent of a full-scale office workplace.

The docking station is designed for users in industry. One-hand docking makes it quick and easy to insert and remove the SIMATIC ITP1000.

## SIMATIC IFP Basic

### Overview

### SIMATIC IFP Basic

With the SIMATIC IFP Basic product series, the range of industrial touch monitors in the SIMATIC IFP product family has been extended by cost-effective versions.

SIMATIC IFP Basic devices feature touch operation and are available in 4 display sizes: 12", 15", 19" and 22".

Industrial monitors and Thin Clients

## SIMATIC Industrial Flat Panel

### Overview

The Industrial Flat Panels are rugged industry-standard LCD monitors in a widescreen design.

- Installation:
  - Equally suited for installation in the machine, in control cabinets, in consoles, to gantries, or in 19" racks.
- Type of operator control:
  - Simple display devices without operator functionality
  - Optional devices with touch control
  - Optional devices with multi-touch control
  - Rear-mounted connection of I/O devices (optional)

Industrial Flat Panels are now available as fully-enclosed Flat Panels.

- IFP1900 PRO (degree of protection IP65)
- Ethernet monitor IFP1900/IFP2200 for remote connection via standard Ethernet (TCP/IP)

## Industrial PC

### Industrial monitors and Thin Clients

#### SIMATIC Flat Panels

##### Overview

The Flat Panels are rugged industry-standard LCD monitors.

- Installation:
  - They are equally suited to installation in the machine, in control cabinets, consoles and gantries or in 19" racks.
- Type of operator control:
  - Simple display devices without operator functionality
  - Optional devices with touch control
  - Rear connection of I/O devices (optional)

#### Note:

Do you need a specific modification or extension to the products described here? Then refer to "Customized Automation". There you will find information about additional and generally available sector-specific products as well as options for customer-specific modification and adaptation.

Examples are:

- SIMATIC SCD monitor 1900 for portrait operation
- SIMATIC Flat Panels with 6" and 10" Touch

## Overview

SIMATIC ITC Industrial Thin Clients are powerful operating units for flexible use in distributed visualization applications.

All devices are equipped with high-resolution, brilliant wide-screen displays, and due to the diverse communication protocols they can be used both for challenging machine-level operator control & monitoring and for the connection to control systems, e.g. in the SCADA environment. They can be used as (additional) operator panels on a SIMATIC Industrial PC, Panel PC, or server, and on a SIMATIC Panel or SINUMERIK.

4

SIMATIC Industrial Thin Clients are also available as glass-front, capacitive multi-touch devices in display sizes 15", 19" and 22".

- SIMATIC ITC1500 V3 – 15" Multi-touch 1 366 x 768
- SIMATIC ITC1900 V3 – 19" Multi-touch 1 366 x 768
- SIMATIC ITC2200 V3 – 22" Multi-touch 1 920 x 1 080

The following installation versions are still available with resistive single-touch:

- SIMATIC ITC1200 – 12" Touch
- SIMATIC ITC1500 – 15" Touch
- SIMATIC ITC1900 – 19" Touch
- SIMATIC ITC2200 – 22" Touch

The SIMATIC HMI Thin Client Ex is available for hazardous areas (Zone 1/11). This device differs technically from the devices mentioned above. For more details, refer to the SIMATIC Thin Client EX chapter.

Industrial PC

Devices for special requirements

## Introduction

### Overview

#### Fully-enclosed IP65 devices

The fully-enclosed IP65 SIMATIC devices (SIMATIC Industrial Flat Panel PRO, SIMATIC Flat Panel PRO, SIMATIC Thin Client PRO and SIMATIC IPC477D PRO) are specially designed for mounting on a support arm/pedestal. Thanks to their extremely rugged design, the devices are ideal for industrial applications in harsh environments.

Portfolio:

- Comfort Panels PRO
- SIMATIC Industrial Flat Panel PRO
- SIMATIC Industrial Thin Client PRO
- SIMATIC IPC477E PRO (15", 19", 22" display size)
- SIMATIC IPC477D PRO (15", 19", 22" display size)
- System components for IP65 all-round protection devices:
  - Fasteners
  - Extension Units and operator controls
  - Extension components

#### Devices with stainless steel fronts

SIMATIC devices with stainless steel fronts (SIMATIC Industrial Thin Client INOX) are designed for use in the food and beverage, pharmaceutical and fine chemicals industries and other hygienic applications for machine-level operator control and monitoring.

The fully-enclosed SIMATIC devices with stainless steel fronts (SIMATIC IPC277E 19" INOX PRO, SIMATIC IFP1900 INOX PRO) are specially designed for mounting on a support arm/pedestal. Thanks to their slim design, the devices are ideally suited to space-saving use on food and beverage machinery and packaging machinery.

Portfolio:

- SIMATIC Industrial Thin Client INOX
- SIMATIC Industrial Flat Panel IFP1900 INOX PRO
- SIMATIC Industrial Flat Panel IFP2200 INOX MT ETH
- SIMATIC IPC277E 19" INOX PRO

#### Devices for hazardous areas

SIMATIC HMI Ex devices are intrinsically safe Panel PCs and Thin Clients that have been specially designed for "Zone 1" and "Zone 2" hazardous areas.

Portfolio:

- SIMATIC HMI Panel PC Ex NG
- SIMATIC HMI Panel PC Ex OG
- SIMATIC HMI Panel PC Ex
- SIMATIC HMI Thin Client Ex NG
- SIMATIC HMI Thin Client Ex OG
- SIMATIC HMI Thin Client Ex2

**Fully enclosed IP65 devices > SIMATIC Industrial Flat Panel PRO****Overview****SIMATIC IFP PRO ETH**

**IFP1500 PRO ETH, IFP1900 PRO ETH and IFP2200 PRO ETH** supplement the current product range of new Industrial Flat Panels with their full HD resolution (1 920 x 1 080 pixels) and neutral design fronts.

Equipped with innovative, projected capacitive touchscreen technology for the detection of multi-touch gestures with up to ten fingers and with a brilliant widescreen display and glass front.

The devices are connected by means of a DisplayPort or Ethernet and USB to PCs, in particular SIMATIC IPCs. The rugged aluminum housing of the monitor enables it to be used directly at the machine and ensures durability, even in harsh and extreme operating environments.

**SIMATIC IFP PRO and SIMATIC IFP PRO ETH:**  
**The new Industrial Flat Panels with fully-enclosed IP65 protection – the industrial widescreen monitors for harsh ambient conditions that can be installed directly on the machine**

**SIMATIC IFP2200 PRO**

The **SIMATIC IFP2200 PRO** supplements the current product range of the new Industrial Flat Panels. Equipped with innovative, projected capacitive touchscreen technology for the detection of multi-touch gestures with up to ten fingers and with a brilliant widescreen display and glass front.

The devices are connected by means of a DVI or DisplayPort interface and USB to PCs, in particular SIMATIC IPCs.

The rugged aluminum housing of the monitor enables it to be used directly at the machine and ensures durability, even in harsh and extreme operating environments.

- Fully-enclosed IP65 protection
- Can be positioned up to 30 m away from the processor unit (IFP Extended version)
- Rugged, industrial 15", 19" and 22" widescreen displays (multi-touch)
- Slim, modern design
- Can be adapted to support arm system of various manufacturers
- Fast integration capability
- Low energy requirement
- Small footprint and low weight
- Low wiring overhead and short maintenance times thanks to use of standard connecting cables
- Integration of operator controls in the new Extension Units

4

Note:

As in the case of the Flat Panel PRO, adaptation to support arm/pedestal systems is possible using the basic adapter. This is included in the scope of supply (only in the case of the "prepared for support arm and extension components" version is the basic adapter not included, as the connection is made via a round tube).

For the version "prepared for support arm and extension components", installation can alternatively take place with the Siemens flange mount or with a standard 48 mm diameter round tube. The flange mount enables the transition from a round tube connection to the familiar mechanical interface of the basic adapter. This means you can combine different versions of the PRO devices with the same support arm or pedestal system.

More information is available on the Internet at:

<http://www.siemens.com/ip65-hmi-devices>

Do you require a specific modification or extension to the products described here? Then look up "Customized products", where you will find information about additional sector-specific products that can be ordered as well as about options for customer-specific modification and adaptation.

## Industrial PC

### Devices for special requirements

Fully enclosed IP65 devices > SIMATIC Industrial Thin Client PRO

#### Overview

IFP PRO, ITC PRO, IPC PRO, Comfort PRO, 22 inch, for support arm  
(not extendable, flange on top)

#### SIMATIC Industrial Thin Client PRO

SIMATIC Industrial Thin Client PRO with capacitive multi-touch display is suitable for mounting directly on the support arm/ pedestal.

4

Note:

An adapter plate is required for mounting on the support arm systems of well-known manufacturers; see "Accessories for fully enclosed HMI devices".

## SIMATIC IPC477E PRO

### Overview

#### SIMATIC IPC477E PRO

The fully enclosed IP65-protected SIMATIC IPC477E PRO in 15", 19" and 22" versions extends the portfolio of PRO devices.

The robust aluminum housing allows it to be used directly on the machine even in harsh environmental conditions.

The operating unit can either be mounted on a pedestal or connected to a support arm system from above.

### Technical specifications

|   |  |
|---|--|
| Article number  | <b>6AV7251-.....</b><br>SIMATIC IPC477E PRO  |
| <b>Installation type/mounting</b>                         |  |
| Mounting  | For mounting on stand or supporting bracket  |
| Design  | Panel PC on pedestal or supporting arm   |
| maximum permissible installation angle +/-                | ±45 °  |
| <b>Supply voltage</b>                                     |  |
| Type of supply voltage                                    | 24 V DC  |
| <b>Line frequency</b>                                     |  |
| • Rated value 50 Hz                                       | Yes  |
| • Rated value 60 Hz                                       | Yes  |
| <b>Processor</b>  |  |
| Processor type  | Celeron G3902 (2C/2T, 1.6 GHz, 2 MB Cache); Core i3-6102E (2C/4T, 1.9 GHz, 3 MB Cache); Core i5-6442EQ (4C/4T, 1.9 (2.7) GHz, 6 MB Cache, iAMT); Xeon E3-1505L v5 (4C/8T, 2.0 (2.8) GHz, 8 MB Cache, iAMT) |
| <b>Graphic</b>  |  |
| Graphics controller                                       | Intel HD graphics controller   |
| <b>Drives</b>   |  |
| Optical drives  | possible as external drive via USB   |
| SSD   | Yes; 1x 128 GB, 1x 240 GB SSD, 1x 480 GB SSD   |
| <b>Memory</b>   |  |
| Type of memory  | DDR4 SO-DIMM   |
| Main memory   | 4 GB to 16 GB, ECC optional  |
| <b>Data areas and their retentivity</b>                   |  |
| Retentive data area (incl. timers, counters, flags), max. | 512 kbyte; 128 KB can be stored in the buffer time   |
| <b>Interfaces</b>   |  |
| Number of industrial Ethernet interfaces                  | 3; 3x Ethernet (RJ45)  |
| USB port  | 4x USB 3.0 onboard (rear)  |
| Connection for keyboard/mouse                             | USB / USB  |
| serial interface  | Without / 2x COM (RS 232 / 422 / 485), selectable in the BIOS  |
| <b>Video interfaces</b>                                   |  |
| • Graphics interface                                      | 2x DisplayPort   |
| <b>Industrial Ethernet</b>                                |  |
| • Industrial Ethernet interface - 100 Mbps                | 3x Ethernet (RJ45)   |
| - 1000 Mbps   | Yes  |

|  |   |
|--|---|
| Article number   | <b>6AV7251-.....</b><br>SIMATIC IPC477E PRO   |
| <b>Integrated Functions</b>  |   |
| <b>Monitoring functions</b>  |   |
| • Temperature monitoring   | Yes   |
| • Watchdog   | Yes   |
| • Fan  | No  |
| • Monitoring function via network  | Optional  |
| <b>EMC</b>   |   |
| <b>Interference immunity against discharge of static electricity</b>       |   |
| • Interference immunity against discharge of static electricity            | ±6 kV contact discharge acc. to IEC 61000-4-2; ±8 kV air discharge acc. to IEC 61000-4-2  |
| <b>Interference immunity against high-frequency electromagnetic fields</b> |   |
| • Interference immunity against high frequency radiation                   | 10 V/m, 80 ... 2 000 MHz, 80 % AM acc. to IEC 61000-4-3; 3 V/m, 2 ... 2.7 GHz; 10 V, 10 kHz ... 80 MHz acc. to IEC 61000-4-6    |
| <b>Interference immunity to cable-borne interference</b>                   |   |
| • Interference immunity on supply cables                                   | ±2 kV acc. to IEC 61000-4-4, burst; ±1 kV acc. to IEC 61000-4-5, surge symmetric; ±2 kV acc. to IEC 61000-4-5, surge asymmetric |
| • Interference immunity on signal cables >30m                              | ±2 kV acc. to IEC 61000-4-5, surge, length > 30 m   |
| • Interference immunity on signal cables < 30m                             | ±1 kV acc. to IEC 61000-4-4; burst; length < 3 m; ±2 kV acc. to IEC 61000-4-4; burst; length > 3 m                              |
| <b>Interference immunity against voltage surge</b>                         |   |
| • asymmetric interference  | ±2 kV acc. to IEC 61000-4-5, surge asymmetric   |
| • symmetric interference   | ±1 kV acc. to IEC 61000-4-5, surge symmetric  |
| <b>Interference immunity to magnetic fields</b>                            |   |
| • Interference immunity to magnetic fields at 50 Hz                        | 100 A/m; to IEC 61000-4-8   |
| <b>Emission of conducted and non-conducted interference</b>                |   |
| • Interference emission via line/AC current cables                         | EN 61000-6-3, EN 61000-6-4, CISPR 22 Class B, FCC Class A   |

### Note:

As with the existing 4:3 IPC477C/D PRO devices, adaptation to different support arm/pedestal systems is by means of the basic adapter. The basic adapter is included in the scope of supply (except in the case of the "prepared for support arm and extension components" version, as the connection is made via a round tube).

For the version "prepared for support arm and extension components", installation can alternatively take place with the Siemens flange mount or with a standard 48 mm diameter round tube. The flange mount enables the transition from a round tube connection to the familiar mechanical interface of the basic adapter.

This means you can combine different versions of the PRO devices with the same support arm or pedestal system.

More information is available on the Internet at:

Do you need a specific modification or option for the products described here? If so, refer to "Customized Automation", where you will find information about additional and generally available sector-specific products as well as options for customer-specific modifications and adaptations.

**Overview**

**SIMATIC IPC477D PRO: The new Multitouch Panel PC with all-round IP65 protection – powerful, maintenance-free, and can be installed directly at the machine**

The IPC477D PRO in 15", 19" and 22" wide screen format extends the portfolio of glass-fronted devices. The rugged aluminum housing of the SIMATIC Panel PC enables it to be used directly at the machine and guarantees durability, even in harsh and extreme operating environments.

- All-round IP65 protection
- Embedded PC platform with extremely high industrial compatibility for demanding tasks in the field of PC-based automation
- Rugged, industrial 15", 19", and 22" widescreen displays (Multitouch)
- Maintenance-free (no rotating components such as fan and hard disk)
- Rugged construction: The PC is resistant to severe mechanical stress and is extremely reliable in operation.
- Slim, modern design
- Battery-independent retentive memory onboard
- Can be adapted to support arm system of various manufacturers
- Integration of operator controls in the new Extension Units (coming soon)
- High degree of investment security
- Fast integration capability

The IPC477D PRO 15", 19" and 22" Panel PCs are available in three different versions, depending on the application:

- Prepared for support arm and extension components (mounting by means of standard 48 mm round tube or Siemens flange adapter)
- Prepared for support arm without extension components (mounting by means of basic adapter, included in scope of delivery)
- Prepared for pedestal/extension components (mounting by means of basic adapter, included in scope of delivery)

**Note:**

As with the existing 4:3 IPC477C PRO devices, adaptation to different support arm/pedestal systems is by means of the basic adapter. The basic adapter is included in the scope of supply (except in the case of the "prepared for support arm and extension components" version, as the connection is made via a round tube).

For the version "prepared for support arm and extension components", installation can alternatively take place with the Siemens flange mount or with a standard 48 mm diameter round tube. The flange mount enables the transition from a round tube connection to the familiar mechanical interface of the basic adapter. This means you can combine different versions of the PRO devices with the same support arm or pedestal system.

<sup>1)</sup> IPC477D PRO as "built to order" version (max. delivery time 15 working days).

<sup>2)</sup> TPM = Trusted Platform Module

## PC-based Automation

Industrial PC

Devices for special requirements

### System components for fully-enclosed IP65 devices

#### Overview

##### ***System components for fully-enclosed IP65 devices***

System components for PRO devices are only suitable for SIMATIC HMI/IPC PRO devices. In combination with the SIMATIC HMI PRO basic devices, these components enable easy adaptation to individual customer requirements for operation and monitoring at the machine level, as well as offering a versatile and attractive solution for visualization and automation without a control cabinet.

The following system components are available:

- Fasteners
  - Adapter sets
  - Basic adapters
  - Flange mount
- Extension Units and operator controls
- Extension components
  - Stainless steel keyboard
  - Tool and keyboard tray
  - USB interface for PRO devices

System components for fully-enclosed IP65 devices > Fasteners

## Overview

### Fasteners

#### Adapter sets, basic adapters and flange mount

The fasteners are required for connecting the SIMATIC HMI PRO device with the support arm head of the respective support arm system.

Since the support arm head is connected directly to the device, there is complete flexibility in the choice of support arm components.

Adapter sets are available for the VESA 75 and VESA 100 systems.

Further adapter sets can be obtained directly from the respective support arm manufacturers:

- Bernstein
- Rittal
- Rose
- Haseke and
- Rolec

For the 4:3 and 16:9 variants, basic adapters are available according to design:

- The basic adapter is included in the scope of delivery of the device for 4:3 systems (dark gray)
- The basic adapter is included in the scope of delivery of the device for 16:9 systems (silver) (the basic adapter is included in the scope of delivery as a matter of principle. It is excluded only from the version "prepared for support arm and extension components", because connection is made via a round tube.)

For the version "prepared for support arm and extension components" of the 16:9 PRO devices, installation can alternatively take place with the Siemens flange mount or with a standard 48 mm diameter round tube.

The flange mount enables the transition from a round tube connection to the familiar mechanical interface of the basic adapter. This means you can combine different versions of the PRO devices with the same support arm or pedestal system.

**VESA 100 adapter set<sup>1)</sup>**

**6AV7674-0KD00-0AA0**

**VESA 75 adapter set**

**6AV7674-0KE00-0AA0**

**Basic adapter for 16:9 systems**

**6AV7674-1KA00-0AA0**

Spare part (silver, included in the scope of delivery of the device)

**Flange mount for 16:9 systems**

**6AV7674-1KF00-0AA0**

Suitable for 16:9 PRO devices of the type "prepared for support arm and extension components (round tube connection)"

**VESA 100/75 flange mount**

For SIMATIC PRO devices.  
Can be mounted with a 100 mm (M6) or 75 mm (M6) VESA. IP20 cable entry directly in the flange mount. Suitable for all common support arm systems with corresponding VESA coupling, load capacity and hole spacing.  
More information is available in the technical specifications.

**6AV6881-0AD56-0AA0**

<sup>1)</sup> The VESA 100 adapter set cannot be used in combination with the 19" Flat Panel PRO.

#### Note:

The 48 mm internal diameter of the support arm tubes is not suitable for feeding through the standard DVI-D cable.

#### Scope of delivery:

- One adapter set or basic adapter, flange mount
- Fittings for mounting

#### More information

<http://www.siemens.com/ip65-hmi-devices>

#### Note:

Do you require a specific modification to or option for the products described here? Under "Customized products" you can find information about additional and generally available products for the sector, and about the possibilities for customized modification and adaptation.

**System components for fully-enclosed IP65 devices > Extension units and operator controls**

## Overview

### Extension Units

12" to 22" Extension Units for SIMATIC HMI PRO devices are an integral part of the system components for fully enclosed IP65 devices. They enable the expansion of the operating options on site by the installation of various operator controls.

Communication can take place via PROFINET, PROFIsafe or conventional wiring.

### SIMATIC Extension Unit (BTO & Advanced)

With Customized Automation, Extension Units are built to specific customer requirements and given their own customer MLFB. BTO (built to order).

#### Extension Units for 16:9 PRO devices

Equipping an Extension Unit with operator controls

Equipping an Extension Unit Advanced (22" KP48, for example)

Extension Units for the 16:9 PRO devices are suitable for the flexible installation of various operator controls that extend the operating options on site easily and on an individual basis. They are coordinated with the design of the 16:9 PRO devices and can easily be mounted below the device by the customers themselves.

Additionally, the Extension Unit box is available for the flexible installation of lower operator controls.

Devices for special requirements

### System components for fully-enclosed IP65 devices > Extension components

#### Overview

##### ***Stainless steel keyboard and keyboard shelf***

HMI accessories, metal keyboard

HMI accessories, shelf

#### ***Extension components***

The extension components are part of the system components for PRO devices and complement the portfolio of devices with all-round protection. These components in combination with the basic devices enable customers to implement a large variety of operating scenarios.

The following products are available as extension components:

- Keyboard shelf for PRO devices
- Keyboard tray for PRO devices
- USB interface for PRO devices
- Handles for PRO devices

## Devices with stainless steel front &gt; SIMATIC Industrial Thin Client INOX

**Overview****SIMATIC ITC1900 INOX**

The Industrial Thin Client with touch screen and stainless steel front is designed for use in the food and beverage industry, the pharmaceuticals industry, fine chemicals and in other hygiene areas for machine-level operator control and monitoring.

For this reason, the devices with stainless steel front have been developed in compliance with EN 1672-2 "Food processing machinery – Safety and hygiene requirements".

## Devices with stainless steel front &gt; SIMATIC Industrial Flat Panel IFP1900 INOX PRO

## Overview

19" INOX PRO with pedestal, front view

**SIMATIC IFP1900 INOX PRO**

Industrial Flat Panel in fully-enclosed stainless steel housing with high degree of protection for machine-level operation and monitoring in the food and beverage, pharmaceutical and fine chemicals industries and in other areas where hygienic requirements are high.

The device has been developed on the basis of EN 1672-2 "Food processing machinery – Safety and hygiene requirements".

With its fully enclosed design and optional expansion modules, the SIMATIC PRO devices are eminently suitable for industrial and machine-level use.

The INOX PRO devices with their stainless steel housing are compact and hygienically designed and feature integrated operating elements. They are also even better equipped to meet the high requirements presented by the food and beverage production environment. IP66K degree of protection protects against water, even with a jet strength of 100 l/min at 10 bar from a distance of 2.5 m to 3 m.

The optimized profile and minimal housing depth allow liquids to run off.

The high quality requirements in the food and beverages industry demand a high standard of the food processing machinery. There are many relevant regulations, directives, ordinances, standards and laws. Essential here is that all equipment and components are easy to clean and disinfect so that cross-contamination of foodstuffs can be avoided.

## Technical specifications

| IFP1900 INOX PRO   |  |                                |
|--|--|--------------------------------|
| Special features   | Pedestal mounting  | Support arm mounting           |
| <b>General features</b>  |  |                                |
| Display  | 18.5" TFT widescreen display   |                                |
| Resolution (pixels)  | 1 366 x 768  |                                |
| MTBF of backlit display (at 25°C)                                    | 50,000 h   |                                |
| Power supply   | 24 V DC  |                                |
| <b>Equipment</b>   |  |                                |
| Touch  | Analog-resistive touch (single touch)  |                                |
| Control elements   | 2 x illuminated pushbutton with LED (red, green), 1 x emergency off; permanently wired on terminals  |                                |
| Option   | External, USB interface on rear with captive stainless steel lock  |                                |
| <b>Special features</b>  |  |                                |
|  | Flange adapter for pedestal  | Flange adapter for support arm |
| <b>Configuration / interfaces</b>                                    |  |                                |
|  | Based on SIMATIC IFP1900 (6AV7863-3MA20-0AA0)  |                                |
|  | 1 x DisplayPort interface  |                                |
|  | 1 x Ethernet interface (RJ45) up to 1 Mbit/s   |                                |
|  | 2 x USB interface  |                                |
|  | For connecting to an IPC427D with these system requirements:   |                                |
|  | <ul style="list-style-type: none"> <li>• Configuration 1:1, without multi-monitor mode</li> <li>• RAM min. 2 GB</li> <li>• Operating systems Windows 7, WES7</li> <li>• Ethernet with min. 100 Mbit/s</li> </ul> |                                |
| <b>Enclosure</b>   |  |                                |
| Front  | Stainless steel 1.4301, polyester-based membrane   |                                |
| Material   | Stainless steel 1.4301   |                                |
| Surface  | Hairline finish, 240 grit abrasive grain   |                                |
| Device seals   | FPM, molded parts, replaceable   |                                |
| Special features   | Decorative display membrane; without USB port on front   |                                |
| <b>Ambient conditions</b>  |  |                                |
| Degree of protection, complete                                       | IP66K, enclosure type 4 and 4x (indoor use only)   |                                |
| Ambient temperature during operation                                 | 0 ... +45 °C   |                                |
| Relative humidity during operation                                   | Max. 95 %, no condensation   |                                |
| Transport temperature / storage temperature / humidity               | - 20°C ... + 60°C / 10 % to 90 % without condensation  |                                |

## Devices with stainless steel front &gt; SIMATIC Industrial Flat Panel IFP2200 INOX MT ETH

**Overview****SIMATIC Industrial Flat Panel IFP2200 INOX MT ETH**

The Industrial Flat Panel (Ethernet monitor) with its projective-capacitive touch screen for multi-finger operation and stainless steel front is designed for use in the food and beverage, pharmaceutical, and fine chemicals industries as well as in other hygienic areas for machine level operator control and monitoring.

For this reason, these stainless steel front devices have been developed in compliance with EN 1672-2 "Food processing machinery – Safety and hygiene requirements".

Devices with stainless steel front > SIMATIC IPC277E 19" INOX PRO

## Overview

Configured Nanopanel PC in fully-enclosed stainless steel housing with high degree of protection for machine-level operation and monitoring in the food and beverage, pharmaceutical and fine chemicals industries and in other areas of hygiene.

The device has been developed on the basis of EN 1672-2 "Food processing machinery – Safety and hygiene requirements".

With its fully enclosed design and optional expansion modules, the SIMATIC PRO devices are eminently suitable for industrial and machine-level use.

The INOX PRO devices feature stainless steel housing and a compact, hygienic design, and are equipped to meet the high requirements presented by the food and beverage production environment. IP66K degree of protection protects against water, even with a jet strength of 100 l/min at 10 bar from a distance of 2.5 m to 3 m.

The optimized profile and minimal housing depth allow liquids to run off.

The high quality requirements in the food and beverages industry demand a high standard of the food processing machinery. There are many relevant regulations, directives, ordinances, standards and laws. Essential here is that all equipment and components are easy to clean and disinfect.

The INOX PRO devices with stainless steel front have a 240 grit hairline finish, and are thus suitably smooth to allow micro-organisms to be sufficiently removed during cleaning.

On the front, the membrane covering the display cutout is tested with regard to its resistance to chemicals, has minimal grooves and gaps in which micro-organisms could settle, and also provides shatter protection for the display. The rear covers have an innovative sealing design with replaceable compression seals. This prevents liquids from seeping through.

## Overview

The SIMATIC HMI Ex devices are intrinsically-safe Panel PCs and Thin Clients which have been specially developed for hazardous areas. The intrinsically-safe design allows simple installation on site. The variety of certification allows use in many parts of the world without further approvals.

The devices are fanless and permit completely maintenance-free installation without batteries or rotating parts.

Available as HMI devices for hazardous areas "Zone 1" and "Zone 2" are:

- SIMATIC HMI Panel PC Ex NG
- SIMATIC HMI Panel PC Ex OG
- SIMATIC HMI Panel PC Ex
- SIMATIC HMI Thin Client Ex NG
- SIMATIC HMI Thin Client Ex OG
- SIMATIC HMI Thin Client Ex2

Further SIMATIC HMI devices are also available for the Zone 2/22 hazardous area and can be found in the "Operator panels" chapter:

- SIMATIC HMI Comfort Panels

## PC-based Automation

Industrial PC

Devices for special requirements

Devices for hazardous areas > SIMATIC HMI Panel PC Ex NG

### Overview

#### Highlights:

- High degree of industrial functionality and industrial front panels
  - Single-touch fronts 22" (1 680 x 1 050), 24" (1 920 x 1 080) and 24" WU (1 920 x 1 200)
  - -30 °C up to 55 °C ambient temperature in operation
  - Resistive Touch Display? 300 cd/m<sup>2</sup>
  - Built-in unit? optional stainless steel enclosure or GMP/cleanroom
- Certificates for hazardous area
  - IECEx, ATEX Zones 1, 21 and 2, 22
  - Class 1, Division 2
  - NEC
  - CEC
  - KGS
  - TR
  - Certificates for marine applications DNV / GL
- High system performance in hazardous areas
  - Intel Bay Trail (BT) 1.91 GHz Quad Core

### SIMATIC HMI Panel PC Ex NG

The new generation SIMATIC HMI Panel PC Ex NG has been specially developed for use in the pharmaceutical, chemical and life science industries, but can also be used in many other areas since it satisfies the requirements for operator control and monitoring directly in hazardous areas.

Due to the 22" and 24" display diagonals, these devices are ideal for showing plant and process information provided from systems such as PCS.

A modern Intel ATOM E3845 Quad Core processor is used with this SIMATIC HMI Panel PC Ex NG.

**Technical specifications**

| SIMATIC HMI Panel PC Ex NG           |  | SIMATIC HMI Panel PC Ex NG         |  |
|--------------------------------------|--|------------------------------------|--|
| <b>General features</b>              |  | <b>Power supply</b>                |  |
| Design                               | Built-in unit  | • 230 V AC                         | • Yes (100 – 240 V AC)   |
| <b>Fronts</b>                        |  | • 24 V DC                          | • Yes; optional  |
| Display diagonal                     | • 22" (1 680 x 1 050) 16:10,<br>• 24" (1 920 x 1 080) 16:9 and<br>• 24" WU (1 920 x 1 200) 16:10   |                                    |  |

Industrial PC

Devices for special requirements

Devices for hazardous areas > SIMATIC HMI Panel PC Ex

## Overview

SIMATIC HMI Panel PC Ex with international approvals for operation and monitoring in hazardous areas.

### Notice:

Effective immediately, the SIMATIC Panel PC Ex will be supplied with a Quad-Core Intel Atom Processor E3845, thus enabling it to offer around four times the performance of the current Intel Atom N270 systems.

A new ordering configurator with the Article No. 6AV7200-4.... has been created:

Additional information is available on the Internet at:

<http://www.siemens.com/simatic-hmi-ex>

And in the Industry Mall:

## Overview

### SIMATIC HMI Thin Client Ex NG

The new generation SIMATIC HMI Thin client Ex NG has been specially developed for use in the pharmaceutical, chemical and life science industries, but can also be used in many other areas since it satisfies the requirements for operator control and monitoring directly in hazardous areas.

Due to the 22" and 24" display diagonals, these devices are ideal for showing plant and process information provided from systems such as PCS.

#### Highlights:

- High degree of industrial functionality and industrial front panels
  - Single-touch fronts 22" (1 680 x 1 050), 24" (1 920 x 1 080) and 24" WU (1 920 x 1 200)
  - -30 °C up to 55 °C ambient temperature in operation
  - Resistive Touch Display? 300 cd/m<sup>2</sup>
  - Built-in unit, optional stainless steel enclosure or GMP/clean room
- Certificates for hazardous area
  - IECEx, ATEX Zones 1, 21 and 2, 22
  - Class 1, Division 2
  - NEC
  - CEC
  - KGS
  - TR
  - Certificates for marine applications DNV / GL
- High system performance in hazardous areas
  - Intel Bay Trail (BT) 1.91 GHz Quad Core

## Technical specifications

**Overview**

SIMATIC HMI Thin Client Ex OG with international approvals for operator control and monitoring in hazardous areas.

**Technical specifications**

| <b>SIMATIC HMI Thin Client Ex</b>   |   |
|---|---|
| <b>General features</b>   |   |
| Design  | Panel PC, stand-alone device for use outdoors   |
| Front   | 15" 4:3 or 21.5" 16:9   |
| Resolution  | 1 024 x 768 or 1 920 x 1 080  |
| Number of colors  | 16.7 million  |
| Brightness  | <ul style="list-style-type: none"> <li>Standard display 350 cd/m<sup>2</sup></li> <li>Sunlight readable display 21.5", 1 000 cd/m<sup>2</sup></li> <li>Sunlight readable display 15", 1 200 cd/m<sup>2</sup></li> </ul> |
| MTBF backlight  | LED backlight approx. 50 000 h (70 000 h at 25 °C)  |
| Multi-touch   | Capacitive  |
| Keys  | 8 function keys (capacitive)  |
| <b>Computing unit</b>   |   |
| Processor   | Intel Core i7-3517UE with 1.7 GHz; AMD GX-217GA   |
| Main memory   | 4 GB  |
| <b>Operating system</b>   |   |
| Windows 10 Enterprise 2016 LTSB   | Pre-installed   |
| Remote Firmware V5  | Pre-installed   |
| <b>Drives</b>   |   |
| Mass storage  | SSD with 60 GB, 80 GB   |
| <b>Interfaces</b>   |   |
| Ethernet  | <ul style="list-style-type: none"> <li>2 x Ethernet 10/100/1000 Base Tx (Ex e) or</li> <li>FO 100 Base Fx 100 Mb (Ex op is)</li> </ul>  |
| USB   | 1 x USB (Ex e), 3 x USB (Ex ia)   |
| Serial  | 1x RS 232/RS 422/RS 485 (Ex e)  |
| DVI   | 1 x DVI Out (Ex e)  |
| Barcode   | 1 x reader interface (external barcode scanner/reader)  |
| Bluetooth   | 1 x (optional)  |
| <b>Power supply</b>   |   |
| <ul style="list-style-type: none"> <li>230 V AC</li> <li>24 V DC</li> </ul> | <ul style="list-style-type: none"> <li>Standard (100 - 240 V AC)</li> <li>Optional</li> </ul>   |
| <b>Ambient conditions</b>   |   |
| Temperature   | <ul style="list-style-type: none"> <li>Running operation: -10 °C to +65 °C</li> <li>Optional: -40 °C to +65 °C</li> <li>Storage: -40 °C to +70 °C</li> </ul>  |
| Relative humidity during operation  | > 95% at +65 °C in accordance with IEC 60068-2-30   |
| Degree of protection  | IP66/4X all-round   |
| Vibration   | Operation: 3 Hz to 22 Hz; 1 mm, 22 to 500 Hz: 9.8 m/s <sup>2</sup> = 1 g in accordance with EN 60068-2-6 and DNV marine approval vibration class A  |
| Shock   | Operation: 15 g/11 ms   |
| <b>Miscellaneous</b>  |   |
| Power consumption at 24 V DC  | 4.6 A (6.9 A in heating mode), (recommended fuses: 12 A)  |
| <b>Weight/size</b>  |   |
| Weights   | 15" Zone 1; < 22.6 kg, 21.5" Zone 1; < 34 kg  |
| Dimensions (W x H x D)  | 15": 380 x 394 x 137 mm<br>21.5": 553 x 458 x 141 mm  |
| <b>Approvals</b>  |   |
| ATEX, IECEx   | <ul style="list-style-type: none"> <li>Gas: II 2 (1) G Ex e q [ia op is Ga] IIC T4 Gb</li> <li>Dust: II 2 (1) D Ex tb [ia op is Da] IIIC T115°C Db</li> </ul>   |
| More, such as UL, NEC, CSA, coming soon                                     |   |

<sup>1)</sup> RFID option only with 21.5" display

#### Note:

Please assemble the required IPC configuration using the TIA Selection Tool or the configurator in the Industry Mall in order to ensure suitability; we do not accept any liability for configurations compiled by users themselves.

An adapter plate is required for mounting on the support arm systems of well-known manufacturers; see "System components for devices with all-round IP65 protection".

Devices for special requirements

Devices for hazardous areas > SIMATIC HMI Thin Client Ex2

## Overview

**SIMATIC HMI Thin Client Ex2** with international approvals for operation and monitoring in hazardous areas.

## Technical specifications

| SIMATIC HMI Thin Client Ex2           |  |
|---------------------------------------|--|
| <b>General features</b>               |  |
| <b>Design</b>                         | Thin Client built-in unit, available in protective enclosure as an option  |
| Front                                 | 15" and 19" display  |
| Operation                             | Touch with 8 function keys   |
| MTBF                                  | 50 000 h   |
| <b>Operating system</b>               | Windows 10 Enterprise 2016 LTSB  |
| <b>Mass storage</b>                   | integrated, 64 GB SSD  |
| <b>Power supply</b>                   | 24 V DC, max. 2.1 A (19")  |
| <b>Interfaces</b>                     |  |
| Ethernet                              | 100 Mbit Ex e, or alternatively fiber-optics<br>100 Mbit (SC) Ex op is   |
| USB 2.0                               | 2 x Ex i, 2 x Ex e (Zone 1) or 2 x Ex nA (Zone 2)  |
| Serial                                | 1 x RS232 or 1 x RS422/485   |
| <b>Ambient conditions</b>             |  |
| Degree of protection                  | IP66 at front, IP65 at rear, IP66 in protective enclosure  |
| Ambient temperature during operation  | -20 °C ... + 50 °C, (cold start -10 °C) with optional auxiliary heater down to -30 °C  |
| Relative humidity during operation    | 90 % at 40 °C, no condensation   |

# PC-based Automation

Industrial PC  
IPC software

## Introduction

### Overview

SIMATIC industrial PCs offer users a wide range of designs and systems which are perfectly matched to industrial applications and meet the stringent demands for ruggedness.

These include e.g.:

- Wide temperature range up to 60 °C
- High resistance to vibration/shock
- Rugged housing design
- Special degrees of protection up to IP65, NEMA 4
- High electromagnetic compatibility (EMC)
- UL, CE industry certification
- Integral industrial power supplies (NAMUR)
- Easy-to-service design for rapid replacement of faulty components

### **Higher system availability**

A graded concept is available for effective early detection of potential failures and minimization of actual downtimes. It consists of software developed specifically for the SIMATIC IPCs, which enables system availability to be individually increased according to the safety requirements.

### **Reduced costs**

Special backup mechanisms reduce the risk of data loss and allow the introduction of new concepts at initial or repeated commissioning.

The remote control and automatic self-diagnostics options reduce travel expenditure and time spent on on-site service calls, allowing service measures to be planned more efficiently. Downtimes are minimized or eliminated altogether.

The SIMATIC IPC software products thus help to significantly reduce the total cost of ownership (TCO) of the installation according to the motto: "Small effort, great effect".

The following components are available:

#### SIMATIC IPC Image & Partition Creator

- Software tool for preventive data backup of hard disk contents
- High-speed restoring of system and data partitions with bit accuracy; user software and special installations are also backed up
- Secure processing of hard disk partitions
- Creation of bootable and password-protected USB flash drives
- Secure deletion of data storage media

#### SIMATIC IPC DiagMonitor

- Diagnostic and alarm software for monitoring SIMATIC IPCs
- Comprehensive monitoring of temperature, fans, hard disks (SMART, RAID, CompactFlash, CFast, SSD), watchdog
- Operating hours counter for preventive maintenance
- Event logging and task planning
- Data exchange via OPC, email, text messages or SNMP
- Integrated BIOS Manager

#### SIMATIC IPC Remote Manager

- Efficient remote maintenance and operation of SIMATIC IPCs
- Use of the Intel Active Management Technology (Intel AMT) for SIMATIC IPCs
- Remote access to desktop, BIOS and power management
- Booting of a remote PC by means of a local ISO image

### ***Operating systems for industrial environment***

#### SIMATIC Industrial OS

Apart from the hardware, the operating system is the most important internal component of a computer. It can come supplied with user programs or simply provide the application resources.

The SIMATIC Industrial OS with its Linux-based operating system not only constitutes an alternative to the Microsoft Windows operating systems also available for the SIMATIC IPCs, it also offers a suitable solution to the challenges listed above.

**Overview**

SIMATIC IPC Image & Partition Creator is the software tool for easy, preventive backup and restoring of hard disk contents (images of individual partitions or complete hard disks). This software can be ordered using the SIMATIC IPC Configurator, or separately as a single license.

- Can run on all SIMATIC IPCs, regardless of the computer configuration
- Direct starting from the USB flash drive possible (no installation required)
- Complete backup by means of a mouse double-click with "1ClickImage" (must be installed)
- Independent of the operating system thanks to ability to start from the bootable USB flash drive with Image & Partition Creator
- Extremely easy system restore using end customer's USB flash drive

|---|---|
| <b>SIMATIC IPC Image &amp; Partition Creator V3.5</b> | Can be ordered using the SIMATIC IPC Configurator |
| <b>SIMATIC IPC Image &amp; Partition Creator V3.5</b> | <b>6ES7648-6AA13-5YA0</b>                         |

Note:

SIMATIC IPC Image & Partition Creator is also available together with the SIMATIC IPC BIOS Manager pre-installed on the SIMATIC IPC Service USB flash drive.

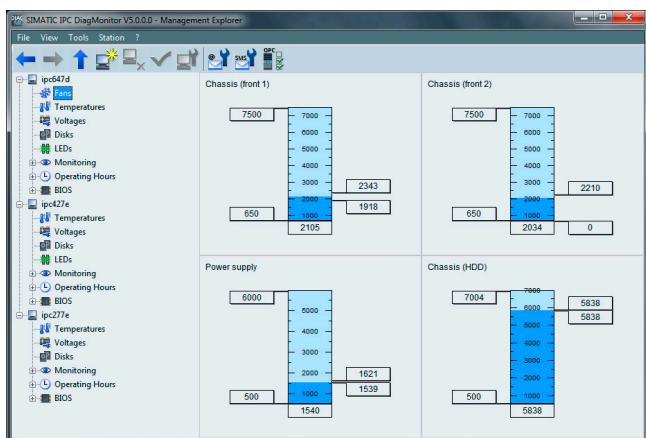

## PC-based Automation

Industrial PC

IPC software

### SIMATIC IPC DiagMonitor

#### Overview

#### Ordering data

#### Article No.

##### SIMATIC IPC DiagMonitor V5.1

Can be ordered using the SIMATIC IPC Configurator

##### SIMATIC IPC DiagMonitor V5.1

Software for diagnostics/messages via Ethernet, email, SMS, OPC, web

- On USB flash drive; single license
- Download via OSD; single license; software and license for download; email address required for delivery

**6ES7648-6CA15-1YX0**

**6ES7648-6CA85-1YX0**

The SIMATIC IPC DiagMonitor permits intelligent and comprehensive monitoring and diagnostics of SIMATIC Industrial PCs.

It detects potential hardware and software faults at an early stage, visualizes operating states and offers various options for access and data exchange.

The SIMATIC IPC DiagMonitor supports not only local diagnostics, but also access via the network to SIMATIC IPC. When installed on a standard PC, all remote functions required for remote access are available.

Only the following SIEMENS products are supported:

- SIMATIC IPC227D / IPC277D
- SIMATIC IPC427D / IPC477D
- SIMATIC IPC627D / IPC647D / IPC677D
- SIMATIC IPC827D / IPC847D
- SIMATIC IPC227E / IPC277E
- SIMATIC IPC427E / IPC477E
- SIMATIC IPC647E
- SIMATIC IPC847E
- SIMATIC IPC547G
- CPU 1515SP PC
- CPU 1515SP PC2

The software can be ordered as:

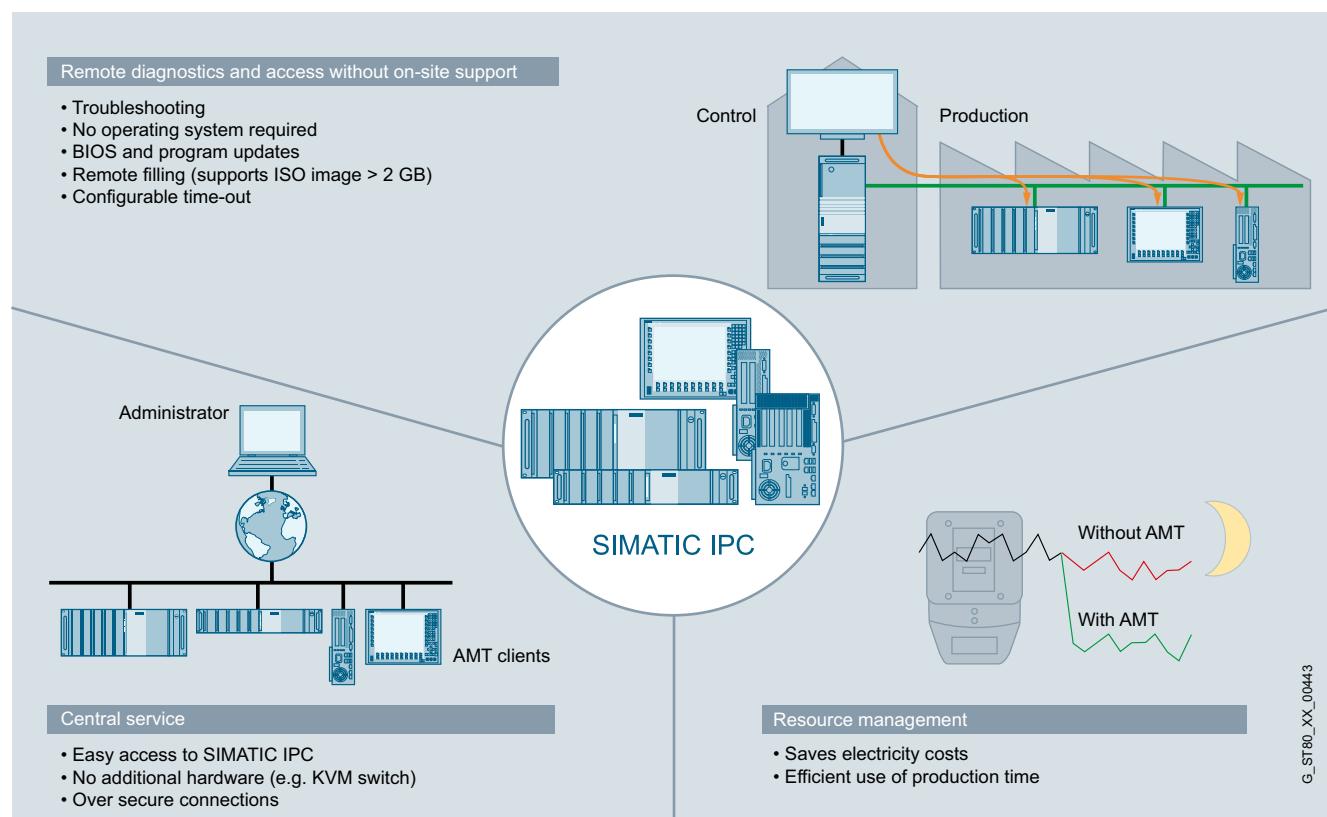

- Individual product from stock (e.g. for server applications on third-party PCs or immediate integration in new systems) on USB flash drive, as download via Online Software Delivery (OSD), or
- as option ordered according to the SIMATIC IPC Configurator (Internet, Industry Mall).

#### Note:

As of Version 5.1, the SIMATIC IPC DiagMonitor is delivered on a USB flash drive.

One version of SIMATIC IPC DiagMonitor is required for each monitoring PC or for each SIMATIC IPC to be monitored.

<https://support.industry.siemens.com/cs/ww/en/view/109763202>

**Overview****SIMATIC IPC Remote Manager**

Efficient remote maintenance and management of SIMATIC IPCs.

With the SIMATIC IPC Remote Manager you can use functions of the Intel Active Management Technology (Intel AMT) for SIMATIC IPCs. Intel AMT is used for remote management of PCs.

Intel AMT offers a range of functions, such as:

- Remote reboot
- IDE redirection
- Keyboard video mouse redirection
- Power on / off / reset, and
- An integrated web server.

**Overview*****SIMATIC Industrial OS – the operating system for applications in the industrial environment***

The SIMATIC Industrial OS with its Linux-based operating system constitutes an alternative to the tried-and-tested Microsoft Windows operating systems available for the SIMATIC IPCs.

The focus is on a small footprint, without unnecessary ballast, but with all components for fast commissioning and simple further development.

It was put together and tested on the SIMATIC IPCs and can be used in industrial environments and other areas of application.

**Released devices:**

Siemens has released the following SIMATIC IPCs for version 1.3 of SIMATIC Industrial OS:

- SIMATIC IPC127E
- SIMATIC IPC327E/377E
- SIMATIC IPC227E/277E
- SIMATIC IPC347E
- SIMATIC IPC427E/477E

**Minimum requirements:**

- USB flash drive with a memory of at least 8 GB
- SIMATIC IPC (see released devices) with at least 4 GB capacity on the target storage medium (CFAST, SSD, etc.)

## PC-based Automation

### Industrial PC

#### Embedded bundles, starter systems, software packages

##### Overview

#### **Embedded bundles and starter systems – The fast, efficient way to get started with PC-based automation**

##### Embedded bundles and starter systems

Embedded bundles and IPC starter systems for PC-based automation are based on rugged, fan-free embedded industrial PCs:

- Nanobox PC SIMATIC IPC227 and Microbox PC SIMATIC IPC427 or
- Panel PC SIMATIC IPC277 and SIMATIC IPC477

They are pre-installed, configured, and ready-to-use with the SIMATIC S7-1507S / SIMATIC WinAC RTX (F) Software Controller and/or a version of the SIMATIC WinCC Advanced visualization software.

Embedded bundles and IPC starter systems are embedded IPC configurations with pre-installed software, specially designed for automation and visualization tasks.

- All embedded bundles and IPC starter systems are based on rugged, fanless SIMATIC IPCs
- Various CPU performance classes are available for different applications. From Intel Atom CPUs for simple open-loop control and visualization tasks, all the way to Intel Xeon CPUs for complex automation solutions
- Optionally pre-installed and configured with the SIMATIC S7-1507S (for IPC227E / 277E / IPC427E / IPC477E / IPC477E PRO) / SIMATIC WinAC RTX (F) Software Controller and/or SIMATIC WinCC RT Advanced visualization software
- Embedded bundles are based on Windows Embedded Standard 7 and the scope of supply includes licenses for the configured system in each case
- The IPC starter systems are based on Windows 10 Enterprise 2016 LTSB. The license for the CPU 1507S can be obtained when ordering the software controller. For WinCC runtime advanced licenses we recommend ordering the software packages required in order to benefit from price savings.

##### Software packages

Software packages with SIMATIC WinCC (SCADA, Advanced, Professional), SIMATIC WinCC flexible and SIMATIC WinAC RTX (F) are available for all SIMATIC IPCs. Ordering the automation software together with an industrial PC results in significant price savings.

##### Benefits

Embedded bundles and starter systems:

- Fast commissioning thanks to preinstalled software
- IPC hardware and software perfectly tuned to each other
- High system availability in order to reduce the risk of potential failures and maintenance costs
- Maintenance-free since no rotating parts (fans, hard disks) and operation without battery possible
- NVRAM can be overwritten by the software controller
- SIMATIC software system-tested
- Long-term availability: Service and support period of 8 to 10 years after market launch

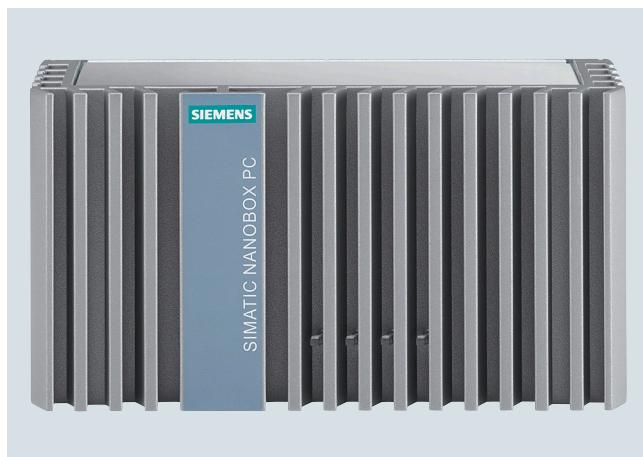

Software packages:

- Easy to order
- Cost savings compared to ordering components individually
- Optimally tuned hardware for the SIMATIC HMI software
- System-tested solution
- Available for all SIMATIC IPCs

##### More information

Additional information is available on the Internet at:

**Overview*****SIMATIC IPC227E (Nanobox PC): The Box PC with optimized performance in compact design – maintenance-free and rugged***

The SIMATIC IPC227E Nanobox PC is an extremely compact and flexible embedded industrial PC.

Thanks to its closed, dust-protected all-metal enclosure, the IPC227E offers maximum industrial functionality for flexible use under harsh conditions—while remaining maintenance-free.

Modern interfaces and the option for expansion via a PCIe slot mean this Box PC can be easily integrated into the automation system. The latest Intel Dual-Core and Quad-Core processors ensure excellent performance here in an ultra-compact design.

## SIMATIC IPC427E bundles and starter systems

## Overview

**SIMATIC IPC427E (Microbox PC): The powerful embedded  
IPC – maintenance-free with versatile configuration**

Ready-to-run, complete solution:

- Ultra-compact
  - Maintenance-free
  - Intel Core i technology of the sixth generation

## SIMATIC IPC277E bundles

### Overview

### **SIMATIC IPC277E: The Panel PC with optimized performance – maintenance-free and compact with displays from 7"**

The SIMATIC IPC277E Nanopanel PC is a flexible embedded industrial PC with rugged and durable displays.

Technologically it is based on the IPC227E Nanobox PC and thus offers maximum industrial functionality for flexible use even under harsh conditions – all without the need for maintenance.

The Panel PC is characterized by modern interfaces and a high degree of flexibility in the selection of the display. The latest Intel Dual-Core and Quad-Core processors ensure excellent performance here for visualization and control tasks.

Please assemble the required IPC configuration using the TIA Selection Tool or the configurator in the Industry Mall in order to ensure suitability; we do not accept any liability for configurations compiled by users themselves.

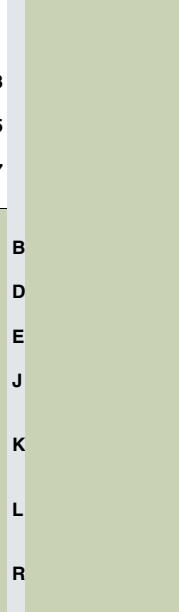

**SIMATIC IPC477E bundles and starter systems****Overview*****SIMATIC IPC477E: The powerful embedded Panel PC – maintenance-free with versatile configuration***

- Embedded PC platform with extremely high industrial compatibility for demanding tasks in the field of PC-based automation
- Maintenance-free (no rotating components such as fan and hard disk)
- Rugged construction: The PC is resistant to even the harshest mechanical stress and extremely reliable in operation
- Compact design
- Battery-independent retentive memory onboard
- High degree of investment security
- Fast integration capability

## Overview

### SIMATIC IPC477E PRO

The fully enclosed IP65-protected SIMATIC IPC477E PRO in 15", 19" and 22" versions extends the portfolio of PRO devices.

The robust aluminum housing allows it to be used directly on the machine even in harsh environmental conditions.

The operating unit can either be mounted on a pedestal or connected to a support arm system from above.

<sup>1)</sup> IPC477E PRO as "built to order" version (max. delivery time 15 working days).

<sup>2)</sup> TPM = Trusted Platform Module

<sup>3)</sup> Scheduled start of delivery: Q1/2019

#### Note:

As with the existing 4:3 IPC477C/D PRO devices, adaptation to different support arm/pedestal systems is by means of the basic adapter. The basic adapter is included in the scope of supply (except in the case of the "prepared for support arm and extension components" version, as the connection is made via a round tube). For the version "prepared for support arm and extension components", installation can alternatively take place with the Siemens flange mount or with a standard 48 mm diameter round tube. The flange mount enables the transition from a round tube connection to the familiar mechanical interface of the basic adapter. This means you can combine different versions of the PRO devices with the same support arm or pedestal system.

## PC-based Automation

Industrial PC

Embedded bundles, starter systems, software packages

### Software packages for SIMATIC IPC

#### Overview

#### Software packages with SIMATIC IPC

Software packages with SIMATIC WinCC, WinCC flexible, or SIMATIC WinAC together with the corresponding SIMATIC IPC.

The following are available:

- SIMATIC IPC packages with WinCC V7
- SIMATIC IPC packages with WinCC RT Advanced (TIA Portal)
- SIMATIC IPC packages with WinCC RT Professional (TIA Portal)
- SIMATIC WinCC flexible
- SIMATIC IPC packages with WinAC RTX (F)

A software package can only be supplied if the same number of SIMATIC industrial PCs is ordered together with the software. It cannot be ordered subsequently.

1) Only if ordered together with a SIMATIC IPC

2) The current version is always supplied

3) IPC227E and IPC277E as WinCC Client only

4) For 32-bit operating systems only

5) Not for Rack IPC327E, IPC347D/E, IPC377E, ITP1000, Panel PC Ex

#### Note:

For ordering data for Panel PCs and accessories, see configurators in "SIMATIC Panel PCs".

## PC-based Automation

### Industrial IoT Gateway

#### SIMATIC IOT2000

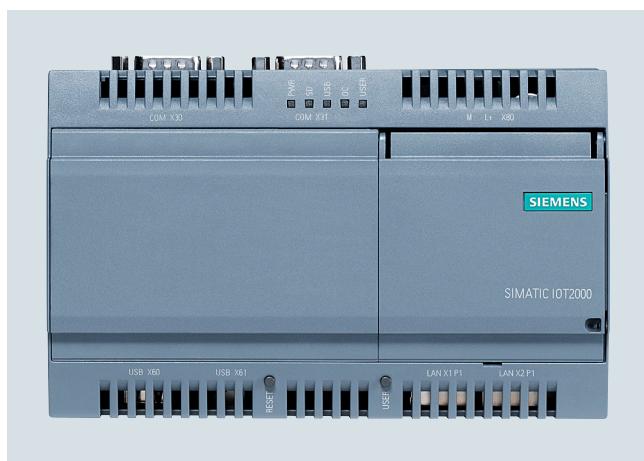

##### Overview

###### **SIMATIC IOT2000**

The SIMATIC IOT2000 is the reliable, open platform designed for the acquisition, processing and transfer of data directly in the production environment.

It is ideally suited for use as a gateway between the cloud or company IT level and production.

It can serve as an interface in both directions. It can also transfer evaluated data from the cloud to production control. This continuous exchange of data closes the control loop for optimizing the production process. The openness of the system in supporting numerous communication protocols and programming in high-level languages enables tailored solutions.

**Overview****SIMATIC IOT2040**

The SIMATIC IOT2040 is the reliable, open platform designed for the acquisition, processing and transfer of data directly in the production environment.

It is ideally suited for use as a gateway between the cloud or company IT level and production.

The openness of the system in supporting numerous communication protocols and programming in high-level languages enables tailored solutions.

**Openness for industrial IOT applications**

- Wide range of options for programming in high-level languages
- Implementation of flexible communication solutions with different protocols, from Modbus RTU, OPC UA to cloud protocols such as MQTT/AMQP
- Use of open source application examples and libraries
- Yocto Linux support

## Overview

### IO shield for SIMATIC IOT2000 industrial IoT gateway

The SIMATIC IOT2000 IO shield allows for direct connection of non-time-critical sensor data to the SIMATIC IOT2000 via digital and analog IOs.

#### Essential highlights:

- High degree of industrial functionality
- Arduino shield with 5x DI, 2x DO, 2x AI
- Rapid installation since suitable cover and fixing accessories supplied
- Industrial design
- For use in standard industrial voltage ranges (e.g. 24 V with digital In)

- Tested environmental conditions as for IOT2040 (e.g. for 0 ... 50° C)
- Approvals as for IOT2040 (CE UL)
- Developed and tested for 24/7 operation
- Extremely versatile application creation
- Module addressing via GPIOs allows wide choice of programming language and development environment.

#### Target applications:

- Direct connection of
  - Sensors
  - Actuators (especially lamps, horns)
- Distribution of data to higher-level units, such as clouds

**Overview****IO shield for SIMATIC IOT2000 industrial IoT gateway**

The SIMATIC IOT2000 IO shield allows for direct connection of non-time-critical sensor data to the SIMATIC IOT2000 via its digital IOs.

**Essential highlights:**

- High degree of industrial functionality
- Arduino shield with 10x DI
- Each input can be used as a sink or source, no configuration necessary
- Rapid installation since suitable cover and fixing accessories supplied
- Industrial design
- For use with standard industrial voltage ranges (e.g. 24 V with digital In)
- Tested environmental conditions as for IOT2040 (e.g. for 0 ... 50° C)
- Approvals as for IOT2040 (CE UL)
- Developed and tested for 24/7 operation
- Extremely versatile application creation
- Module addressing via GPIOs allows wide choice of programming languages and development environments.

**Target applications:**

- Direct connection of sensors
- Distribution of data to higher-level units, such as clouds

**More information**Technical support:

Technical and application support for the SIMATIC IOT2000 Input/Output Module is exclusively via the moderated Siemens Industry Online Forum:  
IOT2000 Forum link:

<https://support.industry.siemens.com/tf/de/de/search/main-search/?text=IOT2000>

You can find Getting Started, FAQs etc. here.

Application examples are continually being added.

**Overview*****SIMATIC S7-1500 software controllers***

- SIMATIC S7-1500 software controllers for implementing control tasks with SIMATIC IPC
- High system availability thanks to innovative real-time system
- Available as standard and fail-safe version
- Improved know-how and copy protection
- Integrated motion control functionalities for controlling speed-controlled and positioning axes, support for external encoders, cams/cam tracks and probes
- Integrated web server for diagnostics with the option of creating user-defined web pages
- SIMATIC ODK 1500S for the development and integration of control functions under Windows with the high-level languages C/C++, VB and C#
- SIMATIC Target 1500™ for the development of control functions using Matlab Simulink®

# PC-based Automation

Software controllers

SIMATIC S7-1500 Software Controllers

## Standard CPUs > CPU 1507S

### Overview

- Software Controller for implementing the functions of a SIMATIC S7-1500 Controller on a SIMATIC IPC
- For use as a PC-based controller in machines with distributed I/O via PROFINET and PROFIBUS
- For utilizing IPC onboard interfaces and PC plug-in cards for PROFINET and PROFIBUS connections
- Optimized for PC-based control tasks with the IPC427E Microbox PC and the IPC477E Panel PC
- Can also be used in IPC227E, IPC477D, IPC627D and IPC827D Box PCs, IPC277E, IPC477D and IPC677D Panel PCs, and IPC647D and IPC847D Rack PCs
- Execution of functions and algorithms implemented with high-level languages under Windows (C/C++, C#, VB) and locally in the CPU 1507S (C/C++)
- Integrated Motion Control functionalities for controlling speed-controlled and positioning axes as well as synchronous operation, support for external encoders, precise position gearing between axes, output cams/cam tracks and probes
- Integrated web server for diagnostics with the option of creating user-defined web pages
- OPC UA server (data access) and client as runtime option for easy connection of the software controller to Windows applications or third-party devices/systems

## PC-based Automation

Software controllers

SIMATIC S7-1500 Software Controllers

### Fail-safe CPUs > CPU 1507S F

#### Overview

- Software Controller for implementing the functions of a SIMATIC S7-1500 Controller on a SIMATIC IPC
- For use as a PC-based controller in machines with distributed I/O via PROFINET and PROFIBUS
- For utilizing IPC onboard interfaces and PC plug-in cards for PROFINET and PROFIBUS connections
- Can be used for safety functions up to SIL 3 according to IEC 61508 and up to PLe according to ISO 13849
- Supports PROFIsafe in distributed configurations
- Optimized for PC-based control tasks with the IPC427E Microbox PC and the IPC477E Panel PC (requires configuration with NVRAM)
- Can also be used in IPC227E, IPC477D, IPC627D and IPC827D Box PCs as well as IPC277E, IPC477D and IPC677D Panel PCs (requires configuration with NVRAM)
- Execution of functions and algorithms implemented with high-level languages under Windows (C/C++, C#, VB) and locally in the CPU 1507S (C/C++)
- Integrated Motion Control functionalities for controlling speed-controlled and positioning axes as well as synchronous operation, support for external encoders, precise position gearing between axes, output cams/ cam tracks and probes
- Integrated web server for diagnostics with the option of creating user-defined web pages
- OPC UA server (data access) and client as runtime option for easy connection of the software controller to Windows applications or third-party devices/systems

- Can be used for safety functions up to SIL 3 according to IEC 61508 and up to PLe according to ISO 13849
- Supports PROFIsafe in distributed configurations
- Optimized for PC-based control tasks with IPC627D and IPC827D Box PCs, IPC677D Panel PC and IPC647D and IPC847D Rack PCs (configuration with NVRAM required)
- Can also be used on IPC427E Box PC and IPC477E Panel PC (configuration with NVRAM required)
- Execution of functions and algorithms implemented with high-level languages under Windows (C/C++, C#, VB) and locally in the CPU 1508S F (C/C++)
- Integrated Motion Control functionalities for controlling speed-controlled and positioning axes as well as synchronous operation, support for external encoders, precise position gearing between axes, output cams/cam tracks and probes
- Integrated web server for diagnostics with the option of creating user-defined web pages
- OPC UA server (data access) and client as runtime option for easy connection of the software controller to Windows applications or third-party devices/systems

**Ordering data****Article No.****SIMATIC S7-1500 Software Controller CPU 1508S F**

For implementing the function of an S7-1500 Controller on SIMATIC IPCs (IPC configuration with NVRAM required)

**Target system:**

Optimized for PC-based control tasks with:  
IPC677D Panel PC  
IPC627D Box PC  
IPC827D Box PC  
Can also be used with:  
IPC477E Panel PC  
IPC427E Box PC

**Requirement:**

Windows 7 / Windows Embedded Standard 7 / Windows 10 (64-bit)

**Type of delivery:**

en, de, fr, it, es, zh

## PC-based Automation

Software controllers

SIMATIC S7-1500 Software Controllers

### ODK 1500S

#### Overview

##### **SIMATIC ODK 1500S**

- For developing dynamically loadable function libraries for the S7-1500 Software Controllers and S7-1500 Advanced Controllers CPU 1518 MFP:
  - Implementation of function libraries that are executed under Windows with the high-level languages C/C++, C# and VB
  - Implementation of function libraries that are executed in real-time in the context of the user program of the CPU with the high-level language C++
  - Implementation of applications for the C++ runtime of the CPU 1518 MFP
- "Eclipse" development environment for real-time function libraries in the CPU user program and applications for the C++ runtime in the scope of delivery.
- Development of library functions under Windows with MS Visual Studio (optional)
- Easy introduction to development by using basic projects via templates
- Automatic creation of function blocks for calling the library functions
- Simple integration of the function blocks into STEP 7 by importing.
- Simple use of the library functions in the controller without specific high-level language know-how

#### Licensing

- ODK 1500S is supplied with a floating license. The floating license allows installation of the software on any number of computers. The number of licenses acquired determines the number of computers on which the software can be used simultaneously.
- An upgrade to version 2.5 is offered for users of the previous versions 1.0 and 2.0.
- The integrated development environment Eclipse, required for developing real-time libraries, is included in the scope of supply of ODK 1500S as well as templates for Visual Studio.
- SIMATIC ODK 1500S is available as a standalone product or in a bundle with SIMATIC Target 1500S™ for Simulink®.

You can find more information on the Software Update Service, license types, online software delivery and handling your SW licenses with the Automation License Manager here:

**ODK 1500S SQL driver, ODK 1500S XML Data Access driver, ODK 1500S FileServer**

## Overview

### Note

This catalog entry contains non-binding information on a supplementary application software for the SIMATIC S7-1500 Software Controller and the SIMATIC ET 200SP Open Controller.

### ODK 1500S SQL driver

The ODK 1500S SQL driver enables direct access to an SQL database from the PLC program. In this case the database can be installed on the same computer as the S7-1500 Software Controller or in the network.

- Direct data exchange with SQL-based database by means of SQL commands from the PCL program
- Connection to SQL-based database on the same PC or to database servers in the network

### Technical specifications

|                        |   |
|------------------------|---|
| Supported SQL commands | <ul style="list-style-type: none"> <li>• SELECT</li> <li>• INSERT</li> <li>• UPDATE</li> <li>• DELETE</li> </ul>  |
| Supported data types   | All standard SQL data types   |
| System requirements    | <ul style="list-style-type: none"> <li>• Runtime PC</li> <li>  SIMATIC IPC with S7-1500 Software Controller or SIMATIC ET 200SP Open Controller</li> <li>• Engineering</li> <li>  STEP 7 in the TIA Portal V13 SP1</li> </ul> |

If you are interested, please contact your sales representative:  
<http://www.automation.siemens.com/partner/>

You can find Service and Support at:

<https://support.industry.siemens.com/cs/ww/en/view/109479140>

### ODK 1500S XML Data Access driver

With the function blocks of the ODK 1500S XML Data Access driver it is possible to access specific information in XML files in the Windows file system from the PLC program.

XPath expressions are used for accessing XML file elements since they provide the highest possible flexibility for processing XML data. This means that extremely large XML files can be edited, too.

The driver offers the following functionality:

- XML data can be read into and processed in the PLC.
- XML data can be modified and written back to the XML file.

### Technical specifications

|                     |   |
|---------------------|---|
| System requirements | <ul style="list-style-type: none"> <li>• Runtime PC</li> <li>  SIMATIC IPC with S7-1500 Software Controller or SIMATIC ET 200SP Open Controller</li> <li>• Engineering</li> <li>  STEP 7 in the TIA Portal V13 SP1</li> </ul> |

You can find Service and Support at:

<https://support.industry.siemens.com/cs/ww/en/view/109479496>

### ODK 1500S FileServer

The ODK 1500S FileServer enhances the file functions of the SIMATIC S7-1500 Software Controller with an option enabling direct access to the Windows file system of the PC from the STEP 7 program.

The driver enables reading and writing of data blocks in/from files in structured form. Various file formats are supported.

There are also FBs available for handling files (e.g. renaming, deleting).

### Technical specifications

|                        |   |
|------------------------|---|
| Supported file formats | <ul style="list-style-type: none"> <li>• CSV</li> <li>• ASCII</li> <li>• Windows-INI</li> <li>• XML<sup>1)</sup></li> <li>• Binary</li> </ul>   |
| System requirements    | <ul style="list-style-type: none"> <li>• Runtime PC</li> <li>  SIMATIC IPC with S7-1500 Software Controller or SIMATIC ET 200SP Open Controller</li> <li>• Engineering</li> <li>  STEP 7 in the TIA Portal V13 SP1</li> </ul> |

<sup>1)</sup> The XML format is predefined. A DB can be saved and read in as an XML file. It is not possible to parse any particular XML file.

If you are interested, please contact your sales representative:

## PC-based Automation

### PC-based Controllers

#### ET 200SP Open Controllers

##### Overview

###### Compact and powerful

The ET 200SP Open Controller, CPU 1515SP PC (F/T/TF), is a rugged, compact control system that combines the functionality of an ET 200SP controller with a PC-based platform. It can be used to control special and series machines, or plants in a distributed configuration. As well as the standard and fail-safe variants, technology and technology fail-safe variants are also available.

The ET 200SP I/O modules can be inserted centrally and communicate via the integrated backplane bus. S7 communication can be established and distributed I/Os can be connected via the PROFINET adapter of the ET 200SP system.

The PROFIBUS CM DP module provides simple expandability for PROFIBUS communication. The CPU 1515SP PC (fail-safe) + HMI with pre-installed WinCC Runtime Advanced is offered for additional HMI functionality.

The CPU 1515SP PC is used wherever special automation functions are to be integrated with support from SIMATIC ODK 1500S via the programming language C or C++, or if a close connection of independent applications is required in Windows for the software controller.

| Characteristics                        | CPU 1515SP PC<br>(F)  | CPU 1515SP PC2<br>(F/T/TF)            |
|--|---|---------------------------------------|

###### SIMATIC Selection Tool

<http://www.siemens.com/tia-selection-tool>

**Overview**

- Turnkey all-in-one solution with pre-installed SIMATIC S7-1500 Software Controller Standard control and optional pre-installed WinCC Runtime Advanced
- Central expansion via ET 200SP modules (station width up to 1 m or up to 64 modules)
- SIMATIC Hypervisor: for separating Windows systems from control functions

- Dual-core processor for optimal use of the hypervisor
- Swappable flash memory (CFast card) for operating system, runtime and project data
- Integrated DVI-I graphics connection; 3x USB 2.0 connection
- 2 PROFINET interfaces: X1 via PN-IO bus adapter (RJ45 or FC) with 2 ports; X2: GB-Ethernet interface (RJ45)
- PROFINET IRT
- Open Ethernet communication (TCP/IP, UDP, ISO-on-TCP)
- Web server functionality for information, status, diagnostics and user-defined webpages
- PROFIBUS DP communication optionally via CM DP module as DP master
- Configuration control (option handling)
- Improved know-how and copy protection; Security Integrated
- Integrated system diagnostics
- Integrated motion control functionalities for controlling speed-controlled and positioning axes with support for external encoders
- Trace function
- Especially suitable for high data volumes and user-specific, open applications
- Integration of control functions and applications implemented in C/C++ (using SIMATIC ODK-1500S Open Development Kit)

<http://www.siemens.com/tia-selection-tool>

**Overview**

ET 200SP Open Controller, CPU 1515SP PC2, combines robustness and compact dimensions with the flexibility of centralized or decentralized communication in the highest industrial functionality. Furthermore, the CPU offers the entire value added of the ET 200SP system, the S7-1500 controller family and the TIA world together.

- Rugged, compact control system
- Combines the functions of a ET 200SP controller with those of a PC-based platform
- Turnkey all-in-one controller
- High performance automation tasks with the use of new generation Intel Quad Core processors
- Connects high-level language applications and processes high data volumes with support from SIMATIC ODK 1500S

##### General information

<http://www.siemens.com/open-controller>

##### SIMATIC Selection Tool

<http://www.siemens.com/tia-selection-tool>

**Overview**

- Turnkey all-in-one solution with pre-installed fail-safe SIMATIC S7-1500 Software Controller and optional pre-installed WinCC Runtime Advanced
- Fail-safe versions make it possible to control machines or plants in a fail-safe environment. This makes it possible to address applications which require an SIL3 (Safety Integrity Level) safety class according to IEC 61508 2nd Edition or a PL e (Performance Level) according to ISO 13849.
- Central expansion via ET 200SP modules (station width up to 1 m or up to 64 modules)
- SIMATIC Hypervisor: for separating Windows systems from control functions
- Dual-core processor for optimal use of the hypervisor
- Swappable flash memory (CFast card) for operating system, runtime and project data
- Integrated DVI-I graphics connection; 3x USB 2.0 connection
- 2 PROFINET interfaces: X1 via PN-IO bus adapter (RJ45 or FC) with 2 ports; X2: GB-Ethernet interface (RJ45)
- PROFINET IRT
- Open Ethernet communication (TCP/IP, UDP, ISO-on-TCP)
- Web server functionality for information, status, diagnostics and user-defined web pages
- PROFIBUS DP communication optionally via CM DP module as DP master
- Configuration control (option handling)
- Improved know-how and copy protection; Security Integrated
- Integrated system diagnostics
- Integrated motion control functionalities for controlling speed-controlled and positioning axes with support for external encoders
- Trace function
- Especially suitable for high data volumes and user-specific, open applications
- Integration of control functions and applications implemented in C/C++ (using SIMATIC ODK-1500S Open Development Kit)

#### General information

<http://www.siemens.com/open-controller>

#### SIMATIC Selection Tool

<http://www.siemens.com/tia-selection-tool>

**Overview**

ET 200SP Open Controller, CPU 1515SP PC2 F, combines robustness and compact dimensions with the flexibility of centralized or decentralized communication in the highest industrial functionality. Furthermore, the CPU offers the entire value added of the ET 200SP system, the S7-1500 controller family and the TIA world together.

- Rugged, compact control system
- Combines the functions of a ET 200SP controller with those of a PC-based platform
- Turnkey all-in-one controller
- Can be used up to safety class SIL3 (Safety Integrity Level) according to IEC 61508 2nd Edition or PL e (Performance Level) according to ISO 13849
- High performance automation tasks with the use of new generation Intel Quad Core processors
- Connects high-level language applications and processes high data volumes with support from SIMATIC ODK 1500S

**Ordering data****Article No.****SIMATIC ET 200SP Open Controller CPU 1515SP PC2 (F) (+ HMI)**

#### Manuals

The manuals for the ET 200SP Open Controller can be  
downloaded online for free from SIMATIC Customer Support:  
<https://support.industry.siemens.com/cs/ww/en/ps/13891/man>

#### General information

<http://www.siemens.com/open-controller>

#### SIMATIC Selection Tool

<http://www.siemens.com/tia-selection-tool>

**Overview**

The single-phase SITOP smart are the universal and powerful standard power supplies for machinery and plant engineering. Despite their compact design, they offer an excellent overload response: Thanks to a power boost of 150%, loads with high power consumption can be connected without any problems and the permanent overload capability of 120% offers power reserves in case of expansions. The high degree of efficiency results in low energy consumption and minimal heat generation inside the control cabinet.

To further increase 24 V availability, the SITOP smart power supplies can be combined with **buffer**, **DC UPS**, **redundancy** and **selectivity modules**.

**Main product highlights**

- 1-phase, 24 V DC/2.5 A, 5 A, 10 A and 20 A
- Input voltage 120 V and 230 V AC with automatic range switching
- Compact design—no lateral clearances required
- Extra power with 1.5 times the rated current (5 s/min) for brief functional overload
- Permanent overload capability with 1.2 times the rated current up to 45 °C ambient temperature
- Adjustable output voltage for compensating voltage drops
- Signaling contact for easy integration in the plant monitoring system
- Wide temperature range from -25 or 0 to +70 °C
- Comprehensive certifications, such as cULus, cCSAus, ATEX, IECEx and DNV GL

## PC-based Automation

### SITOP power supply

#### 3-phase, 24 V DC

##### Overview

The three-phase SITOP smart are the universal and powerful standard power supplies for machinery and plant engineering. Despite their compact design, they offer an excellent overload response: Thanks to a power boost of 150 %, loads with high power consumption can be connected without any problems and the permanent overload capability of 120% offers power reserves in case of expansions. The high degree of efficiency results in low energy consumption and minimal heat generation inside the control cabinet.

To further increase 24 V availability, the SITOP smart power supplies can be combined with **buffer**, **DC UPS**, **redundancy** and **selectivity modules**.

##### Main product highlights

- 3-phase, 24 V DC/5 A, 10 A, 20 A and 40 A
- Wide-range input from 340 to 550 V AC for global use
- Compact design - no lateral clearances required
- Extra power with 1.5 times the rated current (5 s/min) for brief functional overload
- Permanent overload capability with 1.2 times the rated current up to 45 °C ambient temperature
- Adjustable output voltage for compensating voltage drops
- Signaling contact for easy integration in the plant monitoring system
- Wide temperature range from -25 or 0 to +70 °C
- Comprehensive certifications, such as cULus, cCSAus, ATEX, IECEx and DNV GL

##### More information

Select the appropriate power supply quickly and easily with the TIA Selection Tool:

<http://www.siemens.com/tst>

**Overview**

SITOP 24 V power supplies can be expanded with a SITOP UPS500 uninterruptible DC power supply (DC UPS) for bridging short-term power failures in the order of minutes.

In PC-based automation solutions, the highly capacitive double-layer capacitors of the SITOP UPS500 supply enough energy to safeguard operating and application data and close software applications in a defined manner. You can increase the buffer times using SITOP PSU501S expansion modules (up to 3).

By combining one DC UPS module SITOP UPS1600 with at least one UPS1100 battery module and a SITOP power supply unit, longer power failures can be bridged without any interruption. The intelligent battery management automatically detects the UPS1100 energy storage unit, ensures optimized temperature-specific charging and continuous monitoring.

The compact DC UPS modules have overload capability, for example, to supply the inrush current of industrial PCs.

In stand-alone mode, they support starting from the battery.

The DC UPS communicates openly over a USB or Ethernet/PROFINET port. It is easily integrated into the PC or PLC environment over the two Ethernet/PROFINET ports.

Total integration in TIA provides user-friendly engineering in the TIA Portal and is supported with ready-to-use function blocks for S7 user programs and WinCC faceplates for fast visualization.

SITOP Manager also enables simple monitoring and configuration in PC systems, e.g. shutting down multiple PCs according to the master-slave principle.

The UPS1600 modules with Ethernet/PROFINET ports have an OPC UA server, with which the DC UPS can communicate with both PCs and PLCs, even from different manufacturers, thanks to the open communication standard. Parameter assignment and the diagnostics of the uninterruptible power supply is possible via the open interface.

The integrated web server supports remote monitoring of the DC UPS.

**SITOP UPS1100 battery modules****Overview**

Maintenance-free SITOP UPS1100 battery modules with 1.2 Ah up to 12 Ah and various types of energy storage (lead, pure lead, lithium iron phosphate = LiFePo) for SITOP UPS1600 DC UPS modules.

The intelligent UPS1600 battery management charges the UPS1100 with the optimal temperature-controlled charging characteristics and monitors the status (operating data and diagnostics information) of the connected battery modules via the energy storage link. For longer buffer times, up to six battery modules can be connected in parallel. These can be mounted onto a standard mounting rail or directly to the wall.

**Overview**

System integration with OPC server

**OPC (Openness, Productivity & Collaboration)** is a standardized, open, and vendor-independent interface that is widely used in automation.

A fundamental distinction is made between the classic OPC and its consistent further development OPC UA (**Unified Architecture**). Smooth migration to the new OPC UA standard is easily possible; this offers further value added, such as security. The SIMATIC NET OPC servers offer the two interfaces OPC UA and classic OPC for SIMATIC S7 and PROFINET.

- The corresponding OPC servers are included in the scope of supply of the respective communication software
- Standardized, open, multi-vendor interface
- Interfacing of OPC-capable Windows applications to S7 communication, open communication (SEND/RECEIVE), PROFINET, and SNMP
- Increased availability thanks to additional option packages such as OPC server redundancy
- OPC Scout with browser functionality as an OPC client and OCX Data Control/.NET Data Control for simple OPC client creation

**Ordering data****Article No.****SNMP OPC Server**

Status monitoring of SNMP-capable devices in any OPC client systems; e.g. SIMATIC WinCC/PCS 7

**S7 OPC Redundancy**

Industrial Ethernet

### S7 OPC Redundancy for Industrial Ethernet

#### Overview

OPC (Openness, Productivity & Collaboration) is a standardized, open, and vendor-independent interface that is widely used in automation. OPC UA (Unified Architecture) is the result of consistent further development of this standard, offering additional functions such as security or redundancy.

S7 OPC Redundancy is a software product compliant with the OPC UA standard that enables redundant configuration of OPC UA servers for SIMATIC S7.

The availability of automation data to operator control and monitoring systems is ensured thanks to the redundant use of OPC UA servers. This requires neither additional cabling for synchronizing the redundant OPC UA servers, nor additional programming effort on the PC.

The OPC UA servers are synchronized via high-performance Industrial Ethernet network accesses at 10/100 and 1000 Mbps. S7 OPC Redundancy represents an integrated customer solution for all SIMATIC NET S7 SOFTNET and HARDNET software products in the automation world.

**Overview**

- Status monitoring of SNMP-capable devices in any OPC client systems; e.g. SIMATIC WinCC/PCS 7
- Easy access to SNMP-capable devices over the OPC interface
- Devices without SNMP agents can be monitored using the ping mechanism
- Configuration with STEP 7 (up to STEP 7 V5.5) or NCM PC
- Ready-to-use SNMP diagnostics profiles for Siemens devices, e.g. SCALANCE X/W
- Generation of any SNMP diagnostics profiles by means of the integral MIB compiler
- Easy setup of the monitored devices with the help of an Autodiscovery function

**Ordering data****Article No.****SNMP OPC Server**

Including MIB compiler; single license for one installation of runtime software; software and electronic manual on CD-ROM; license key on USB stick, Class A;

**SNMP OPC Server Basic**

### SINEMA Server

#### Overview

The SINEMA server software has been specially developed for industrial applications. It enables you to fully visualize and monitor networks. Using SNMP and simultaneous diagnostics via SIMATIC and PROFINET mechanisms, many aspects of plant diagnostics can be portrayed in a single tool.

Captured data is stored in a long-term archive and can be evaluated and presented as required. The predefined network diagnosis can also be seamlessly integrated into HMI/SCADA systems (e.g. WinCC, PCS 7) via OPC UA and web mechanisms.

#### Main features:

**Inventory:** Inventorying of all network subscribers

**Topology:** Topological representation of the network (HTML 5-based UI)

**Monitoring:** Read-out of status information

**Diagnostics:** Evaluation and presentation of diagnostic states

**Reporting:** Presentation of statistics for any time period

**Validation:** Validation of network parameters

**Propagation:** Forwarding of data to other systems

**Management:** Configuration of devices via CLI / firmware management

#### Ordering data

## PC-based Automation

Communication for PC-based systems  
PROFIBUS

### CP 5613 A3

#### Overview

| DP-M | DP-S | FMS | OPC | PG/OP | S7/S5 |
|------|------|-----|-----|-------|-------|
| ●    | ●    |     | ●   | ●     | ●     |

- PCI card (universal keyed 5 V/3.3 V) with internal microprocessor for connection of PCs and SIMATIC PG/PC to PROFIBUS at up to 12 Mbps
- Communication services:
  - PROFIBUS DP master according to IEC 61158/61784 on one PCI card
  - PG/OP communication with STEP 7
  - S7 communication with HARDNET-PB S7 software package
  - Open communication (SEND/RECEIVE) based on the FDL interface
- Comprehensive diagnostics possibilities for installation, commissioning and operation of the module
- High performance over direct dual-port RAM access
- Event and filter mechanisms to reduce the loading on the host CPU
- Multiprotocol operation and parallel operation of up to four CPs
- Implementation in Motion Control applications is possible because a constant bus cycle time is supported
- The appropriate OPC servers and configuration tools are included in the scope of supply of the respective communications software

### CP 5711

#### Overview

| DP-M | DP-S | FMS | OPC | PG/OP | S7/S5 |
|------|------|-----|-----|-------|-------|
| ●    | ●    |     | ●   | ●     | ●     |

- USB adapter for the connection of PCs and SIMATIC PG/PC to PROFIBUS DP or MPI via USB 2.0
- Operation in extended temperature range of -20 °C to +60 °C
- Active PROFIBUS termination to supply the PROFIBUS network as the end station of a segment
- Robust USB connection due to mechanical locking of the USB plug to the CP 5711 housing
- Communication services:
  - PROFIBUS DP master Class 1 and 2 according to IEC 61158/61784 with SOFTNET-PB DP software package
  - PROFIBUS DP slave with SOFTNET-PB DP slave software package
  - PG/OP communication with STEP 5 or STEP 7 software package
  - S7 communication with SOFTNET-PB S7 software package
  - Open communication (SEND/RECEIVE on basis of FDL interface) with SOFTNET-PB DP or SOFTNET-PB S7 software package
- PROFIBUS connection with up to 12 Mbps
- Can be used with:
  - STEP 7, STEP 7 Micro/WIN, WinCC/WinCC flexible, NCM PC, SIMATIC PDM (for PG/OP communication)
  - SOFTNET-PB S7 (for S7 communication)
  - SOFTNET-PB DP, SOFTNET-PB DP slave (for DP)
- The appropriate OPC servers and configuration tools are included in the scope of supply of the respective communication software

### S7 OPC Redundancy for PROFIBUS

#### Overview

OPC (Openness, Productivity & Collaboration) is a standardized, open, and vendor-independent interface that is widely used in automation. OPC UA (Unified Architecture) is the result of consistent further development of this standard, offering additional functions such as security or redundancy.

S7 OPC Redundancy is a software product compliant with the OPC UA standard that enables redundant configuration of OPC UA servers for SIMATIC S7. The availability of automation data to operator control and monitoring systems is ensured thanks to the redundant use of OPC UA servers. This requires neither additional cabling for synchronizing the redundant OPC UA servers, nor additional programming effort on the PC.

The OPC UA servers are synchronized via high-performance Industrial Ethernet network accesses at 10/100 and 1000 Mbps. S7 OPC Redundancy represents an integrated customer solution for all SIMATIC NET S7 SOFTNET and HARDNET software products in the automation world.

USB adapter for the connection of PCs/notebooks and SIMATIC PG/PC to the SIMATIC S7 automation system via USB interface.

- For connection to USB 1.1, 2.0 and 3.0 interfaces
- Power supply from the USB interface
- PROFIBUS connection with up to 12 Mbps
- Support for routing
- Automatic transmission rate and profile search
- Can be used as of Windows XP SP2
- As of Windows 7, can also be used with 64-bit systems
- Scope of delivery:
  - PC adapter USB A2
  - CD with drivers for the PC adapter USB A2
  - USB cable
  - MPI cable 0.3 m
