

WATER TREATMENT
Devices are made to withstand the most abusive environments

FOOD AND BEVERAGE PROCESSING

Rated to withstand harsh, wet environments common to food and beverage facilities

AEROSPACE

High level performance for the most high tech industries

FACTORY

Ideal for delivering power to all types of industrial machinery and equipment

TOP LEVEL PERFORMANCE FOR DEMANDING ENVIRONMENTS

- 1 **Superior Protection from Water Ingress**
new cone seal prevents water from accumulating at the cable entrance
- 2 **Superior Strain Relief**
with Hubbell's patented Gotcha® ring
- 3 **Collapsible Bushing**
allows compression nut to fully seat on device body
- 4 **Smooth Body Design**
for easy release of dirt and debris when washed down
- 5 **NSF Certified Products**
Hubbell offers the only NSF Certified products on the market
- 6 **UL Verified to Maintain NEMA Type 4X**
when mated to installed base of competitive products
- 7 **Industry's First IP69k Devices**
protects against extreme wash down and excessive dust

Known as The Most Trusted Name in Food Safety™, NSF International has been helping businesses in the agriculture, processing, food equipment, restaurant and retail industries to navigate the food safety and regulatory environment for nearly 70 years.

Superior water ingress protection uniquely designed for the most extreme wash down procedures, withstanding hot and high pressure water, in addition to excessively dusty environments.

Watertight Wiring Devices

HUBBELL®
Wiring Device-Kellems

Plugs, Connectors and Receptacles

Watertight Wiring Devices include plugs, connectors, single receptacles and duplex receptacles. Plugs and connectors are available in 15 and 20 Amp straight blade devices as well as 15, 20 and 30 Amp Twist-Lock® devices.

FD Boxes and Angled Adapters

Fully UL Listed surface mount boxes are engineered with features that allow easy, code compliant installation of all types of devices from 15 to 50 Amp, including metallic ground bonding bracket, threaded conduit hubs and external mounting supports. Together with an industry first 55° angle adapter, the combination of devices is the only code compliant 45 cu. in. solution for 50 Amp, 4-wire Twist-Lock® installations. The angle adapter can also be installed separately for panel applications.

Portable Outlet Boxes

The portable outlet boxes have wiring room large enough to accommodate the broadest range of device requirements in one size box. Available in black or yellow, the fully thermoplastic elastomer housing exceeds UL crush requirements and is highly impact resistant.

Cover Plates for Portable Outlet Boxes and Panels

These cover plates are made from Impact resistant PBT material. The cover plates provide a UL Type 3R seal on a panel or on a portable outlet box.
