安装说明
Инструкция по монтажу**

en **Warning! Hazardous voltage!**

Installation by person with electrotechnical expertise only and in accordance with the specific national regulations (e. g., VDE, etc.). Before installing this unit, read these operating and installation instructions carefully and completely. Do not connect any conductor to terminals not labelled.

de **Warnung! Gefährliche Spannung!**

Installation nur durch elektrotechnische Fachkraft. Landesspezifische Vorschriften (z. B. VDE, etc.) beachten. Vor der Installation diese Betriebs- und Montageanleitung sorgfältig lesen und beachten. An die nicht beschrifteten Klemmen darf kein Leiter angeschlossen werden.

fr **Avertissement ! Tension électrique dangereuse !**

Installation uniquement par des personnes qualifiées en électrotechnique et en conformité avec les prescriptions nationales (p. e. VDE, etc.). Avant l'installation de cet appareil veuillez lire l'intégralité de ces instructions. Ne pas connecter de conducteur aux bornes non marquées.

es **¡Advertencia! ¡Tensión peligrosa!**

La instalación deberá ser realizada únicamente por electricistas especializados. Es necesario respetar las normas específicas del país (p. ej. VDE, etc.). Antes de la instalación lea completamente estas instrucciones. No conectar ningún conductor a los bornes no marcados.

it **Avvertenza! Tensione pericolosa!**

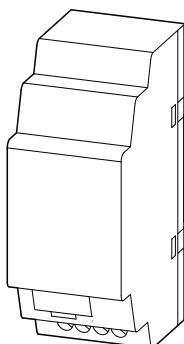

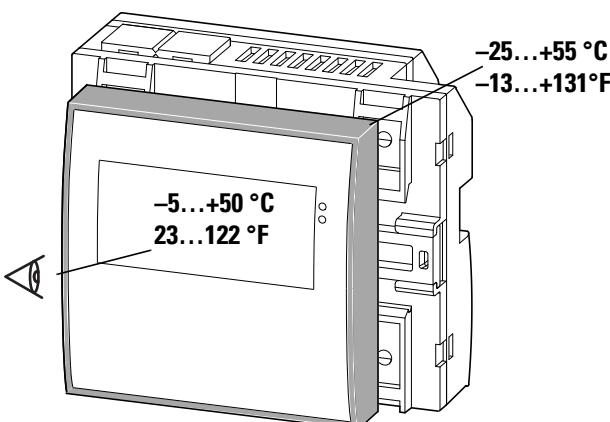

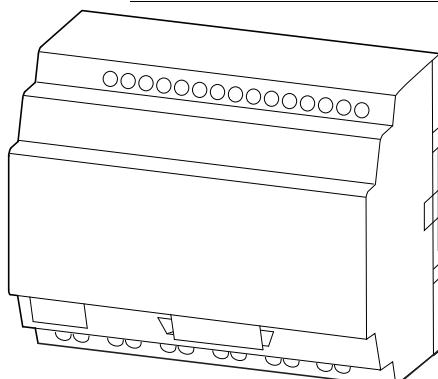

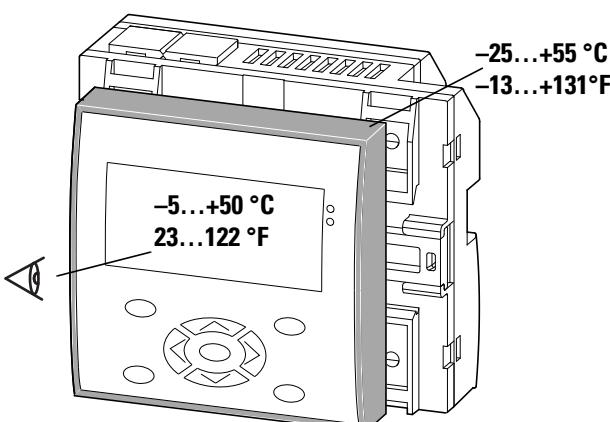

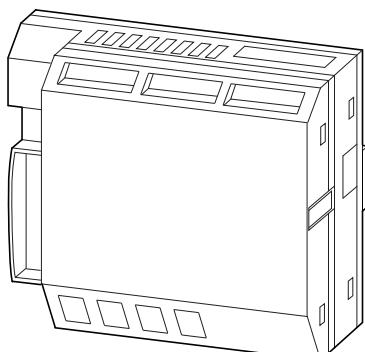

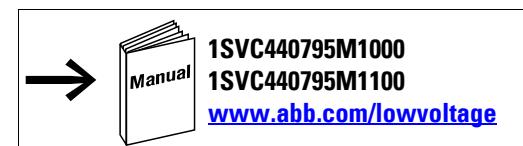

Far installare solo da un elettricista specializzato. Bisogna osservare le specifiche norme nazionali p. e. VDE, etc.). Prima dell'installazione leggere attentamente le seguenti istruzioni. Non collegare nessun conduttore ai morsetti non marcati.

zh **警告！危险电压！**

仅可由电气专业人员安装且需符合特定的国家规定（如VDE等）。安装前，请仔细且全部阅读该安装说明。无标识的端子不可接线。

ru **Осторожно! Опасное напряжение!**

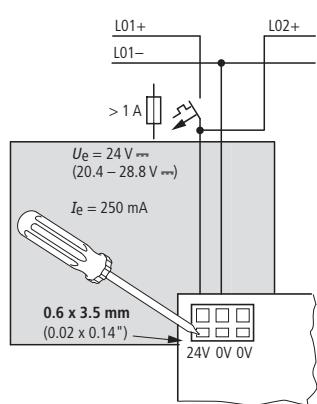

Только специалисты или проинструктированные лица могут Монтаж должен выполняться только специалистом-электриком в соответствии с нормативным законодательством (т. к. VDE, итд). Перед установкой элемента внимательно ознакомьтесь с инструкцией. Не подключайте провода к клеммам, не имеющий обозначений.

Interface – Schnittstelle – Interfaccia

(en) Warning!

The interface must be kept closed.
Electrostatic discharges may destroy the device if the interface is open

(de) Warnung!

Die Schnittstelle ist geschlossen zu halten.
Elektrostatische Entladungen können bei geöffneter Schnittstelle das Gerät zerstören.

(fr) Avertissement !

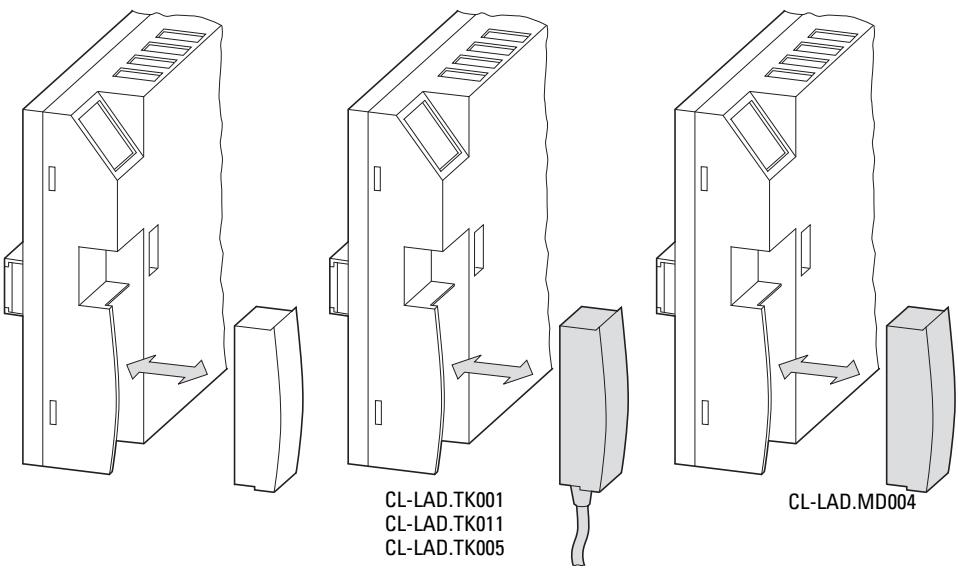

Lorsqu'aucun connecteur n'est enfiché dans l'interface, cette dernière doit impérativement être obturée à l'aide du capot prévu à cet effet (fourni avec l'appareil). Dans le cas contraire, des décharges électrostatiques risquent d'endommager gravement l'appareil et de le rendre inutilisable.

(es) ¡Advertencia!

La interfaz debe permanecer cerrada.
De lo contrario, descargas electroestáticas podrían dañar el aparato

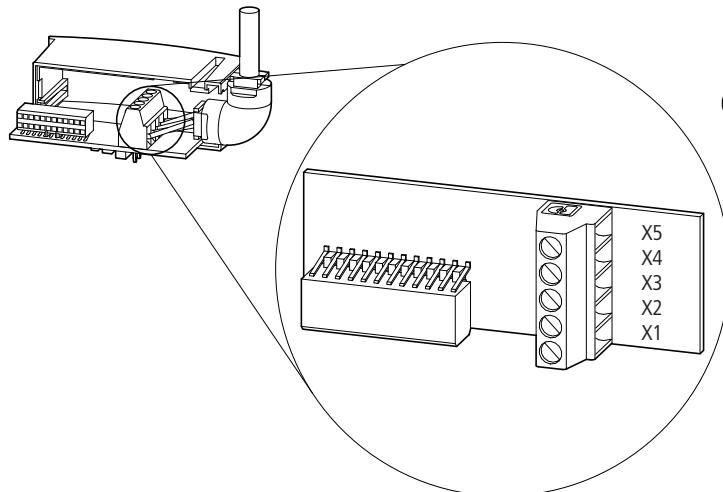

(it) Avvertimento!

L'interfaccia deve restare chiusa. Scariche elettrostatiche con interfaccia aperta possono distruggere l'apparecchio.

Protective cover – Schutzhülle – Capot de protection – Tapa protectora – Calotta di protezione

Protective diaphragm – Schutzmembrane – Membrane de protection – Membrana protectora – Membrana di protezione

NEMA Type 4X

Caution!

Ensure that the protective diaphragm fits snugly in the groove of the display/operating unit. Otherwise a proper seal cannot be guaranteed and particles may enter underneath the diaphragm. This may cause malfunctions in the keypad. In food industry applications, there is the risk of bacteria building up underneath the diaphragm.

Vorsicht!

Stellen Sie sicher, dass die Schutzmembrane fest in der Nut des Anzeige-/Betriebs-Gerätes sitzt, da sonst eine ausreichende Abdichtung nicht gewährleistet ist und somit Partikel unterhalb der Membrane eindringen können. Dies kann zu Fehlfunktionen in der Tastatur führen. Bei Anwendungen in der Nahrungsmittelindustrie besteht das Risiko der Bildung von Bakterien unterhalb der Membrane.

Attention !

Assurez-vous que la membrane de protection est correctement insérée dans la gorge de l'unité d'affichage et de commande opérateur. Dans le cas contraire, l'étanchéité est insuffisante et des particules sont alors susceptibles de s'introduire sous la membrane, ce qui peut entraîner des dysfonctionnements au niveau du clavier. Pour les applications dans l'industrie agroalimentaire, il existe un risque de développement de bactéries sous la membrane.

Atención!

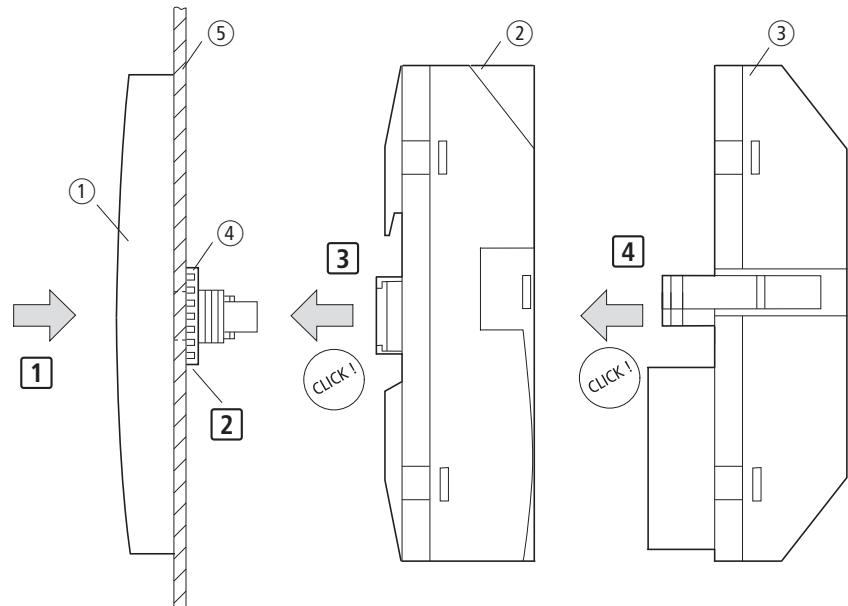

Asegúrese de que la membrana protectora se inserta bien en la muesca del aparato de visualización/funcionamiento, pues de lo contrario no podrá garantizarse una estanqueidad total y es posible que se introduzcan partículas por debajo de la membrana. Esto puede provocar funciones erróneas en el teclado. En aplicaciones en la industria alimenticia existe el riesgo de que se formen bacterias debajo de la membrana.

Attenzione!

Assicurarsi che la membrana di protezione sia collocata saldamente nella scanalatura del display/unità operativa. In caso contrario non è garantita una tenuta sufficiente e potrebbe verificarsi l'infiltrazione di particelle sotto la membrana, con conseguente compromissione del funzionamento della tastiera. In caso d'impiego nell'industria alimentare esiste il rischio di formazione di batterie sotto la membrana.

Mounting the expansion modules with front mounting – Montage der Erweiterungsgeräte bei Frontbefestigung – Montage des extensions en cas de fixation avant – Montaje de los aparatos de ampliación con fijación frontal – Montaggio dei moduli di espansione con fissaggio frontale

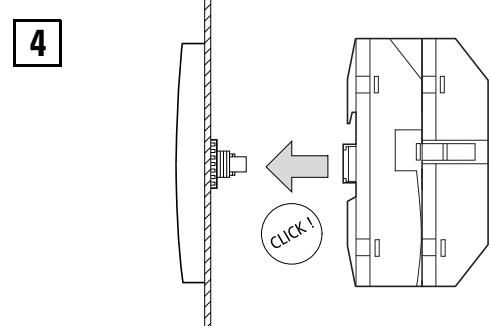

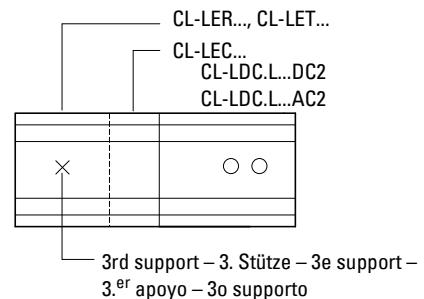

Caution!
Without additional 3rd support, only expansion units with a width of 2 modules are possible.

Vorsicht!
Ohne zusätzliche 3. Stütze sind nur Erweiterungsgeräte mit 2 TE Baubreite erlaubt.

Attention !
Sans 3ème support supplémentaire, seules les extensions avec une largeur de 2 PE sont admises.

iAtención!
Sin un 3.^{er} soporte adicional sólo se pueden utilizar aparatos de ampliación con una anchura total de 2 UM.

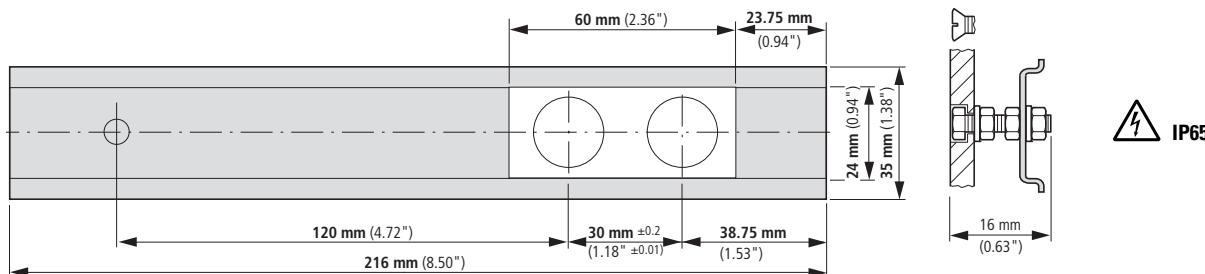

Attenzione!
Senza 3° supporto aggiuntivo, sono ammesse soltanto unità di espansione larghe 2 moduli.
