

#45-344

Serrated Cutter for Kevlar®

Serrated Cutter for Kevlar® with Patent Pending “Breaker-Notch” #45-344

- New 2-step process increases tool life
- Adjustable pivot
- High-carbon stainless steel with Molybdenum and Vanadium provide super hard razor sharp edges

Instructions:

When cutting the complete cable use 2-step process:

Step 1. Cut/break the jacket and glass fiber with the “Breaker-Notch” (patent pending)

Step 2. Trim the Kevlar® aramid strength member with the fine serrated edges of the tool.

When only trimming the Kevlar®, the fine serrated edges should be used.

Suggestion: Periodically clean inside surfaces of blades with a soft cloth.

CAUTION:

Always wear safety glasses when working with fiber.

Dispose of fiber debris safely.

Note: Kevlar® is a registered trademark of DuPont.
