SIEMENS

Data sheet

6GK7343-5FA01-0XE0

Product type designation

CP 343-5

Communications processor CP 343-5 for connection of SIMATIC S7-300 to PROFIBUS, FMS, S5-compatible, PG/OP and S7 communication, 12 Mbit/s, Single-width

Transmission rate	
Transfer rate	
• at the 1st interface / acc. to PROFIBUS	9.6 kbit/s 12 Mbit/s
Interfaces	
Number of interfaces / acc. to Industrial Ethernet	0
Number of electrical connections	
• at the 1st interface / acc. to PROFIBUS	1
for power supply	1
Type of electrical connection	
• at the 1st interface / acc. to PROFIBUS	9-pin Sub-D socket (RS485)
• for power supply	4-pole terminal block
Supply voltage, current consumption, power loss	
Type of voltage / of the supply voltage	DC
Supply voltage / 1 / from backplane bus	5 V
Supply voltage	24 V
Supply voltage / external	24 V
Supply voltage / external / at DC / Rated value	24 V

Relative positive tolerance / at DC / at 24 V	20 %
Relative negative tolerance / at DC / at 24 V	15 %
Consumed current	
• from backplane bus / at DC / at 5 V / typical	0.15 A
 from external supply voltage / at DC / at 24 V / typical 	0.25 A
Power loss [W]	5 W
Ambient conditions	
Ambient temperature	
• during operation	0 60 °C
during operation during storage	-40 +70 °C
	-40 +70 °C
during transport Deleting hyperidity	-40 +70 G
Relative humidity	05.9/
 at 25 °C / without condensation / during operation / maximum 	95 %
Protection class IP	IP20
i ioteotion dass ii	11 20
Design, dimensions and weight	
Module format	Compact module S7-300 single width
Width	40 mm
Height	125 mm
Depth	120 mm
Net weight	0.3 kg
Mounting type	
Mounting type ● S7-300 rail mounting	Yes
• S7-300 rail mounting	
S7-300 rail mounting Product properties, functions, components / general	
S7-300 rail mounting Product properties, functions, components / general Number of units	al
 S7-300 rail mounting Product properties, functions, components / general Number of units per CPU / maximum 	al
S7-300 rail mounting Product properties, functions, components / general Number of units per CPU / maximum Performance data / open communication	4
S7-300 rail mounting Product properties, functions, components / general Number of units per CPU / maximum Performance data / open communication Number of possible connections / for open communication / by means of SEND/RECEIVE	4
S7-300 rail mounting Product properties, functions, components / general Number of units per CPU / maximum Performance data / open communication Number of possible connections / for open communication / by means of SEND/RECEIVE blocks / maximum	4
S7-300 rail mounting Product properties, functions, components / general Number of units • per CPU / maximum Performance data / open communication Number of possible connections / for open communication / by means of SEND/RECEIVE blocks / maximum Amount of data • as user data per connection / for open communication / by means of SEND/RECEIVE	16
S7-300 rail mounting Product properties, functions, components / general Number of units • per CPU / maximum Performance data / open communication Number of possible connections / for open communication / by means of SEND/RECEIVE blocks / maximum Amount of data • as user data per connection / for open communication / by means of SEND/RECEIVE blocks / maximum	16
Product properties, functions, components / general Number of units per CPU / maximum Performance data / open communication Number of possible connections / for open communication / by means of SEND/RECEIVE blocks / maximum Amount of data as user data per connection / for open communication / by means of SEND/RECEIVE blocks / maximum Performance data / FMS functions Number of possible connections / for FMS	16 240 byte
Product properties, functions, components / general Number of units • per CPU / maximum Performance data / open communication Number of possible connections / for open communication / by means of SEND/RECEIVE blocks / maximum Amount of data • as user data per connection / for open communication / by means of SEND/RECEIVE blocks / maximum Performance data / FMS functions Number of possible connections / for FMS connection / maximum	16 240 byte
Product properties, functions, components / general Number of units • per CPU / maximum Performance data / open communication Number of possible connections / for open communication / by means of SEND/RECEIVE blocks / maximum Amount of data • as user data per connection / for open communication / by means of SEND/RECEIVE blocks / maximum Performance data / FMS functions Number of possible connections / for FMS connection / maximum Amount of data / of the variables	4 16 240 byte 16

• Configurable from server to FMS partner

256

• Loadable from server to FMS partner

256

Performance data / S7 communication

Number of possible connections / for S7

communication

• maximum 16

Performance data / multi-protocol mode

Number of active connections / with multi-protocol mode

48

Performance data / telecontrol

Protocol / is supported

• TCP/IP

No

Product functions / management, configuration

Configuration software

required

STEP 7 V5.1 SP3 or higher and NCM S7 for PROFIBUS

Security information

Security information

Siemens provides products and solutions with industrial security functions that support the secure operation of plants, solutions, machines, equipment and/or networks. They are important components in a holistic industrial security concept. With this in mind, Siemens' products and solutions undergo continuous development. Siemens recommends strongly that you regularly check for product updates. For the secure operation of Siemens products and solutions, it is necessary to take suitable preventive action(e.g. cell protection concept) and integrate each component into a holistic, state-of-the-art industrial security concept. Thirdparty products that may be in use should also be considered. For more information about industrial security, visit http://www.siemens.com/industrialsecurity. To stay informed about product updates as they occur, sign up for a product-specific newsletter. For more information, visit http://support.automation.siemens.com. (V3.4)
